19. **Bed Bug Educational Information:**

They're back and they're bigger than ever: After a decades-long hiatus, bedbugs have made a creepy-crawly comeback in hotels, office buildings, department stores -- you name it -- all across the U.S. In fact, according to a recent poll conducted by the National Pest Management Association (www.pestworld.org), 95% of the pest control companies surveyed reported a bedbug infestation within the last year -- up an astounding 70% from more than a decade ago.

The pesky critters can induce itchy, red welts and enough anxiety to make travelers wonder if they should stay home. Luckily, there are plenty of precautionary measures to reduce the risks of an encounter while on the road. Sleep better

at night by following the expert tips at www.nysipm.cornell.edu.

With proper identification, a thorough room inspection, and careful packing and unpacking, you can stop worrying about sleeping tight -- and letting the bedbugs bite.

What Do Bedbugs Look Like?

Wingless bedbugs range in size from 1 to 7 millimeters, are reddish brown, and flat and oval in shape. Adult bed bugs are flat and are the size of poppy seeds. Fecal droppings (brown or black stains that look like pepper flakes), shed skins, and the tinier translucent eggs and nymphs (juveniles) are evidence of the live pest. Blood stains on mattress seams, sheets, furniture, baseboards and cracks in furniture are also signs. Lots of other pests are easily confused with bed bugs.

If You Travel, What Steps Should You Take??

If you travel, a hard-shelled suitcase has fewer folds and seams where bedbugs can hide. Pack your belongings -- clothes, toiletries, shoes -- in sealable plastic bags, and open only when accessing the items. Alternatively, consider wrapping your entire pack in a trash bag to stave off potential infestations during your travels. Many travelers throw a suitcase on the bed or keep the bag zipped up on the floor in hopes of keeping out any wandering scourges. Instead, place your baggage -- including any purses, backpacks, or camera bags -- on a luggage rack or in the bathroom, where there are fewer nooks and crannies.

How to Inspect Your Hotel Room and Your Home

Bedbugs like to lodge themselves into cracks, crevices, folds, and ruffles in areas frequently trafficked by humans. When you arrive, pull back the covers of the bed and inspect under the linens and pillows. Use a flashlight if necessary. Look in the seams and sides of the mattress, box spring, and frame, and then check behind the headboard. The majority of the pests away from the bed will be within close proximity: under and around nightstands and lamps, and in the pleats of upholstered furniture (a favored hideaway) and drapes. The bloodsuckers can also reside behind wall hangings, such as mirrors and paintings.

When You Get Home

Even just a few of these critters can start a full-blown infestation, should you inadvertently carry them back to your abode. Conduct a thorough inspection of your suitcase outdoors or in the garage, away from furniture and sleeping areas. If you live in an apartment, use your balcony, bathtub, or shower (bedbugs have a harder time crawling up smooth surfaces and are easier to spot against light colors). In the worst-case scenario, keep the suitcase out in the hallway. Pay special attention to pockets, linings, and seams. Then thoroughly vacuum or steam clean the bag before stowing it away. Wash all of your clothes -- even those unworn -- on a high-heat setting, and dry for at least 30 minutes. This will kill any previously undetected bugs.

Other Precautions:

Bed bugs can enter homes by latching onto used furniture, luggage and clothing, and by traveling along connecting pipes and wiring. Never bring bed frames, mattresses, box springs or upholstered furniture found on the street into your home. Check all used or rented furniture for bed bugs. If you suspect you have been around bed bugs, immediately wash and dry your clothing on hot settings.

How to Clean and Disinfect?

Get rid of clutter to reduce places bedbugs can hide. After checking them for bed bugs, consider putting non-essential belongings into storage until the bed bugs are gone from your home. Check all items again before returning. Wipe off dead bugs, blood stains, eggs and droppings with hot soapy water. Wash all items showing bed bug stains in hot water (140 degrees F) and dry on the highest setting for at least 30 minutes. Other clean items suspected of having bed bugs should be placed in a hot dryer for at least 30 minutes to kill bed bugs. After drying, store items in sealed plastic bags until you are sure you have gotten rid of bed bugs. Vacuum carpets, floors, bed frames, furniture, cracks and crevices daily, using the brush and crevice tools. Empty the vacuum or seal and dispose of its bag outside of your home after each use. Enclose infested mattresses and box springs in a cover that is labeled "allergen rated," "for dust mites," or "for bed bugs" for at least a full year. Periodically check for rips or openings and tape these up.

If Treatment is Required

Any bed bug issue must be treated immediately and you must comply with any protocol provided by the company providing the treatment. Follow up treatments are frequently required. Over-the-Counter foggers and bug bombs are not effective against these bugs. Never spray the top of a mattress or sofa.

20. **Keys and Remotes:** Landlord/Agent agrees to deliver to tenant upon possession:

If it is not done within the first 30 days, Tenant acknowledges that Tenant will be responsible for the cost of the re-key and required to provide AGENT a copy of the key within 60 days of this agreement's start date. Tenant shall be responsible for the security of the premises until all keys and openers have been physically returned to Landlord/Agent or otherwise satisfactorily accounted for by the Tenant. Leaving keys and garage door openers/entry gate openers in or on the premises will not be considered returned, per the Arizona Residential Landlord Tenant Act. Tenant is not authorized to change the locks or add a deadbolt lock. Tenant agrees to pay the cost of replacing any of these keys or openers which are not returned upon tenant's move-out. Tenant acknowledges that unless otherwise provided herein, premises have not been re-keyed. **If Tenant is locked out of the premises, Tenant may acquire keys from Agent at Agent's office during normal business hours for a fee of \$50 payable via cashier's check or money order.** Agent will not be responsible for delivering keys to Tenant nor for providing keys after normal business hours. If any required repair is not made within 72 hours of Tenant's request, it is Tenant's responsibility to continue to notify Agent until the repair has been scheduled and completed. If it is found that the requested repair was unnecessary or that it was caused by the abuse or misuse of Tenant, then the service call may be charged to Tenant. For example, if a service call is requested by Tenant to repair a disposal and a bottle cap found in the disposal is found to be the cause of the problem, the service call may be charged to Tenant. Another example may be that Tenant requests a service call because the air conditioner is not working, but upon the vendor investigating the issue, nothing is found to be wrong with it, or it is found that the filter has not been changed and that is the cause of the problem, the service call may be charged to Tenant.

In the event of an insect infestation, such as bees in the walls or termites, extermination will be the responsibility of Landlord.

Tenant acknowledges that the property may be covered by a home warranty at any time during the tenancy. This may impede Agent's ability to address maintenance issues in as timely a manner as is preferred by Tenant.

Dirty HVAC filters can cause mechanical failure. In the event dirty filters cause mechanical failure, the Tenant may be charged the associated repair or replacement costs.

If Tenant fails to maintain landscape in satisfactory condition, Agent may notify Tenant of default. If Tenant fails to respond by maintaining and preserving the yard, the Tenant hereby authorizes Agent to contract for landscape services and add the cost of services to the Tenant's rent. Failure to pay this additional rent shall be a cause for termination of the lease.

The Tenant is responsible for contractor service call charges if Tenant makes an appointment with the contractor but does not meet the contractor at the agreed upon time and a service call charge results. It is the responsibility of the Tenant to make arrangements for repairs with the contractors during normal business hours. If Tenant chooses to make an appointment after the normal business hours and an overtime charge results, Tenant will be responsible for the overtime portion of the charge, except in an emergency situation as determined by Agent.

If materials or labor has been pre-approved by Landlord/Agent and purchased by Tenant, Landlord/Agent will reimburse Tenant. Tenant will simply send in the receipts to the Agent. For bookkeeping purposes, Landlord/Agent cannot permit these items be deducted from the rent. Any improvements shall become the property of the Landlord and shall remain upon and be surrendered with the premises at the termination of this agreement or any of its extensions.

In the event of a "break in," Tenant will supply the Landlord/Agent with a copy of the police report at Tenant's expense. Should the Tenant fail to do so, Tenant agrees to pay the repair cost. Broken windows and glass are the responsibility of the Tenant, unless the Tenant supplies the Landlord/Agent with a copy of the police report at Tenant's expense.

Air duct cleaning is the responsibility of the Tenant. Tenant is responsible for the clearing of all clogged drains and sewer lines on the premises, unless said stoppage is the result of structural defect or root growth in the main sewer line.

Tenant is responsible for notifying the Agent of any water leak within 24 hours of its discovery or the Tenant will be held responsible for removal of the water and any repairs resulting from the water damage including but not limited to mold remediation.

All decisions regarding repairs, including the completion of any repair, whether to repair or replace the item, and the selection of the technician, will be at the Landlord/Agent's sole discretion. Professional maintenance personnel hired by Landlord/Agent will determine fault or negligence of Tenant. Any delay of repairs shall not release Tenant from the obligation of paying rents when due nor shall Tenant be compensated for down time of appliances or use of the home.

Tenant's initials 

Landlord/Agent is not responsible for loss of perishable items due to refrigerator malfunction or loss of power to the refrigerator. Tenant will not be compensated for downtime of appliances nor is Landlord/Agent liable for downtime of appliances.

A septic system is reasonably maintenance-free when the following recommendations are followed:

- Do not discharge too much water into the system at one time.
- Do not use excessive amounts of any household chemicals; for example, do not dump cleaning water for latex paintbrushes into the house sewer.
- Don't deposit coffee grounds, cooking fats, heavy duty paper towels that do not dissolve easily, disposable diapers, facial tissues, cigarette butts, feminine hygiene products, dental floss, cigarette butts, coffee grounds, or other materials that do not decompose into the system.
- Avoid dumping grease down the drain.
- Use a high quality toilet tissue that breaks up easily when wet.
- Use the garbage disposal sparingly as it can clog the drain field.
- Do not park anything heavy on top of the septic tank.

Tenant may be held financially responsible for damage to the property as a result of failure to report a repair item in a timely manner, or that is caused by rain or wind as a result of leaving windows or doors open.

Tenant shall properly install the filter(s) that is provided within two days of receipt. Tenant hereby acknowledges that the filter(s) will be dated and subject to inspection by Landlord/Agent upon reasonable notice to verify replacement has been made in a timely manner. If at any time Tenant is unable to properly or timely install a filter(s), Tenant shall immediately notify Agent in writing. Tenant's failure to properly and timely replace filter(s) is a material breach of this agreement and Landlord shall be entitled to exercise all rights and remedies it has against Tenant and Tenant shall be liable to Landlord for all damages to the property or HVAC system caused by Tenant's neglect or misuse.

23. Mold Disclosure: Substantial attention has been given to the possible health effects of mold in homes and apartments. Mold found inside such buildings is referred to as indoor mold and is categorized as being either toxic or nontoxic. Certain types of toxic indoor molds may cause health problems in some people while triggering only common allergic responses in others. Non-toxic indoor molds are ordinarily no more than a common nuisance.

The existence of indoor mold is often not detectable by a visual inspection and therefore can go undetected by Real Estate Agents, Landlords and even Professional Home Inspectors. The only certain way to determine if the premises you are leasing contains harmful or toxic indoor mold or other airborne health hazards is to retain an environmental expert to perform an indoor air quality test. If past or present existence of any toxic or non-toxic mold, water intrusion or moisture has been disclosed to you, or discovered by you, you should have that condition professionally evaluated.

If at any time before or during tenancy, Tenant suspects mold may be present and wishes to have the premises tested for mold, the inspection will be at the expense of Tenant.

Agent recommends that every Tenant consider having an indoor air quality test and/or other health hazard test performed by an environmental expert prior to signing the Lease if it is a material concern of Tenant. This is particularly

Tenant's initials DS DA

important if any of the inspection reports or disclosure documents indicate the existence of past or present moisture, standing water, visible water stains, or water intrusion in the Premises.

All inspections, including those to detect the existence of indoor mold or other health hazards, should be completed prior to signing the Lease. Any waiver or failure on the part of the Tenant to complete all desired inspections and tests prior to lease signing, including those for indoor mold or other health hazards, is contrary to the advice and recommendations of Agent.

The Agent has no knowledge of whether the Premises may have either toxic or non-toxic indoor mold and they hereby acknowledge that they have not been informed of the existence of any indoor mold problems by the Landlord or any other individual. Also, the Agent has not and cannot verify, whether or not there is now or ever has been any indication of indoor mold in the Premises. If mold is visible inside the Premises, it is hereby acknowledged by the Tenant that Agent is not qualified to verify or identify whether the visible mold is toxic or non-toxic or whether or not there is any existing health risk that may be associated with such mold in or on the Premises.

If Tenant has any questions about indoor mold in or about the Premises, or about potential health problems which may result from toxic and non-toxic mold, the Agent strongly recommends seeking advice from an environmental expert.

Tenant acknowledges having received and read a copy of the forgoing information pertaining to mold. Tenant agrees that if there are any questions pertaining to same, Tenant will seek professional advice in a timely manner. Tenant has not and will not rely on Agent to furnish such advice. Tenant acknowledges that Tenant has received no advice and/or information other than this information, pertaining to mold from either the Agent or Landlord.

TENANT SPECIFICALLY RELEASES, HOLDS HARMLESS AND INDEMNIFIES LANDLORD/AGENT FROM ANY LIABILITY FOR ANY MOLD FOUND ON THE PREMISES WHICH COULD HAVE BEEN DISCOVERED BY SUCH INSPECTIONS.
