A. Primary Term: The primary term of this lease begins and ends as follows:

Commencement Date: July 1, 2022 Expiration Date: June 30, 2023

B. Delay of Occupancy: Tenant must occupy the Property within 5 days after the Commencement Date. If Tenant is unable to occupy the Property by the 5th day after the Commencement Date because of construction on the Property or a prior tenant's holding over of the Property, Tenant may terminate this lease by giving written notice to Landlord before the Property becomes available to be occupied by Tenant, and Landlord will refund to Tenant the security deposit and any rent paid. Landlord will abate rent on a daily basis for a delay caused by construction or a prior tenant's holding over. This paragraph does not apply to any delay in occupancy caused by cleaning, repairs, or make-ready items.

4. **AUTOMATIC RENEWAL AND NOTICE OF TERMINATION:** This lease automatically renews on a month-to-month basis unless Landlord or Tenant provides the other party written notice of termination as provided in Paragraph 4A. Oral notice of termination is not sufficient under any circumstances. Time is of the essence for providing notice of termination (strict compliance with dates by which notice must be provided is required). The date on which rent is due does not apply to the requirement for providing written notice of termination. If a box is not checked under Paragraph 4A, Paragraph 4A(1) will apply. If a box is not checked under Paragraph 4B, Paragraph 4B(1) will apply.

A. This lease automatically renews on a month-to-month basis unless Landlord or Tenant provides the other party written notice of termination not less than: *(Check only one box.)*

B. If this lease automatically renews on a month-to-month basis, it will continue to renew on a month-to-month basis until either party provides written notice of termination to the other party and the notice of termination will be effective: *(Check only one box.)*

- ☒ (1) on the last day of the month following the month in which the notice is given. Landlord is not obligated to prorate rent even if Tenant surrenders the Property before the termination date.

## 5. RENT:

The first full month's rent is due and payable not later than June 30, 2022 by *(select one or more)*: ☒ cashier's check ☒ electronic payment ☒ money order ☐ personal check or ☐ other means acceptable to Landlord.

Thereafter, Tenant will pay the monthly rent so that Landlord receives the monthly rent on or before *(check only one box)*:

☒ (1) the first day of each month during this lease.

☐ (2) \_\_\_\_\_  
Weekends, holidays, and mail delays do not excuse Tenant's obligation to timely pay rent.

B. Prorated Rent: On or before June 30, 2022 Tenant will pay Landlord \$ \$34.00 as prorated rent from the Commencement Date through the last day of the month in which this lease begins.

C. Place of Payment: Unless this lease provides otherwise, Tenant will remit all amounts due to Landlord under this lease to the following person or entity at the place stated and make all payments payable to the named person or entity. Landlord may later designate, in writing, another person or place to which Tenant must remit amounts due under this lease.

Name: StarPointe Realty Management, LLC

Killeen, TX 76543

**Notice: Place the Property address and Tenant's name on all payments.**

D. Method of Payment:

- (1) Tenant must pay all rent timely and without demand, deduction, or offset, except as permitted by law or this lease.
- (2) Time is of the essence for the payment of rent (strict compliance with rental due dates is required).
- (3) Unless the parties agree otherwise, Tenant may not pay rent in cash and will pay all rent by *(select one or more)*: ☐ cashier's check ☒ electronic payment ☐ money order ☐ personal check or ☐ other means acceptable to Landlord. Landlord ☒ may or ☐ may not charge a reasonable fee to process or accept payment by *(select one or more only if Landlord indicates a reasonable fee may be charged)*: ☒ cashier's check ☒ electronic payment ☒ money order ☒ personal check or ☒ other means acceptable to Landlord.
- (4) Landlord ☒ requires ☐ does not require Tenant(s) to pay monthly rents by one payment.
- (5) If Tenant fails to timely pay any amounts due under this lease or if any check of Tenant is not honored by the institution on which it was drawn, Landlord may require Tenant to pay such amount and any subsequent amounts under this lease in certified funds. - E. Rent Increases: There will be no rent increases through the primary term. Landlord may increase the rent that will be paid during any month-to-month renewal period by providing at least 30 days written notice to Tenant.

## 6. LATE CHARGES:

- A. If Landlord does not actually receive a rent payment in the full amount at the designated place of payment by the \_\_\_\_\_ 3 day of each month at 11:59pm, Tenant will pay Landlord for each late payment:

- (1) an initial late charge equal to (*check one box only*): ☐ (a) \$ \_\_\_\_\_; or ☒ (b) 12.000 % of one month's rent; **and**  
 (2) additional late charges of \$ N/A per day thereafter until rent and late charges are paid in full. Additional late charges for any one payment may not exceed more than 30 days.

**Notice: \$92.019, Property Code prohibits assessing a late fee until rent has remained unpaid for at least two full days after the date on which the rent is due.**

- B. For the purposes of paying rent and any late charges, the mailbox is not the agent for receipt for Landlord (the postmark date is not the date Landlord receives the payment). The parties agree that the late charge is reasonable based on uncertain damages to the Landlord related to the late payment of rent, including direct or indirect expenses, direct or indirect costs, or overhead associated with the collection of late payment. Landlord's acceptance of a late charge does not waive Landlord's right to exercise remedies under Paragraph 27.

7. **RETURNED PAYMENT:** Tenant will pay Landlord \$ \$35.00 for each payment Tenant tenders to Landlord which is returned or not honored by the institution on which it is drawn for any reason, plus any late charges until Landlord receives payment. Tenant must make any returned payment good by paying such amount(s) plus any associated charges in certified funds.

8. **APPLICATION OF FUNDS:** Regardless of any notation on a payment, Landlord may apply funds received from Tenant first to any non-rent obligations of Tenant, including but not limited to, late charges, returned payment charges, repairs, brokerage fees, periodic utilities, pet charges, and then to rent.

## 9. PETS:

- A. Unless the parties agree otherwise in writing, Tenant may not permit, even temporarily, any pet on the Property (including but not limited to any mammal, reptile, bird, fish, rodent, or insect). An assistance animal is not considered a pet.
- B. If Tenant violates this Paragraph 9 or any agreement to keep a pet on the Property, Landlord may take all or any of the following action:
- (1) declare Tenant to be in default of this lease and exercise Landlord's remedies under Paragraph 27;
  - (2) charge Tenant, as additional rent, an initial amount of \$ 300.00 and \$ 75.00 per day thereafter per pet for each day Tenant violates the pet restrictions;
  - (3) remove or cause to be removed any unauthorized pet and deliver it to appropriate local authorities by providing at least 24-hour written notice to Tenant of Landlord's intention to remove the unauthorized pet; and
  - (4) charge to Tenant the Landlord's cost to:
    - (a) remove any unauthorized pet;
    - (b) exterminate the Property for fleas and other insects;
    - (c) clean and deodorize the Property's carpets and drapes; and
    - (d) repair any damage to the Property caused by the unauthorized pet.

Any additional deposits Tenant pays to Landlord, other than the security deposit, will become part of the security deposit.

- C. Refund: Tenant must give Landlord at least thirty (30) days written notice of surrender before Landlord is obligated to account for or refund the security deposit. Any refund of the security deposit will be made payable to all Tenants named in this lease.

## Notices about Security Deposits:

- (1) §92.108, Property Code provides that a tenant may not withhold payment of any portion of the last month's rent on grounds that the security deposit is security for unpaid rent.
- (2) Bad faith violations of §92.108 may subject a tenant to liability up to 3 times the rent wrongfully withheld and the landlord's reasonable attorney's fees.
- (3) The Property Code does not obligate a landlord to return or account for the security deposit until the tenant surrenders the Property and gives the landlord a written statement of the tenant's forwarding address, after which the landlord has 30 days in which to account.

**B. NOTICE:** If Landlord fails to repair a condition that materially affects the physical health or safety of an ordinary tenant as required by this lease or the Property Code, Tenant may be entitled to exercise remedies under §92.056 and §92.0561 of the Property Code. The Property Code presumes that 7 days is a reasonable period of time for the Landlord to make a diligent effort to repair a condition unless there are circumstances which establish that a different period of time is appropriate (such as the severity and nature of the condition and the availability of materials, labor, and utilities). Failure to strictly follow the procedures in the applicable sections may cause Tenant to be in default of the lease.

**C. Completion of Repairs:**

- (1) Tenant may not repair or cause to be repaired any condition, regardless of the cause, without Landlord's permission. All decisions regarding repairs, including the completion of any repair, whether to repair or replace the item, and the selection of contractors, will be at Landlord's sole discretion.
- (2) Landlord is not obligated to complete a repair on a day other than a business day unless required to do so by the Property Code.

**D. Payment of Repair Costs:**

- (1) Except as otherwise specified in this lease, Landlord will pay to repair or remedy conditions in the Property in need of repair if Tenant complies with the procedures for requesting repairs as described in this Paragraph 18. This includes, but is not limited to, repairs to the following items not caused by Tenant or Tenant's negligence:
  - (a) heating and air conditioning systems;
  - (b) water heaters; or
  - (c) water penetration from structural defects.
- (2) Landlord will NOT pay to repair the following items unless caused by Landlord's negligence:
  - (a) conditions caused by Tenant, an Occupant, or any guest or invitee of Tenant;
  - (b) damage to doors, windows, and screens;
  - (c) damage from windows or doors left open;
  - (d) damage from wastewater stoppages caused by foreign or improper objects in lines that exclusively serve the Property;
  - (e) items that are cosmetic in nature with no impact on the functionality or use of the item; and
  - (f) the following specific items or appliances: N/A

**E. Trip Charges:** If a repair person is unable to access the Property after making arrangements with Tenant to complete the repair, Tenant will pay any trip charge the repair person may charge, which amount may be different from the amount stated in Paragraph 14C.

- 23. RESIDENTIAL LANDLORD'S LIEN:** Landlord will have a lien for unpaid rent against all of Tenant's nonexempt personal property that is in the Property and may seize such nonexempt property if Tenant fails to pay rent. Subchapter C, Chapter 54, Property Code governs the rights and obligations of the parties regarding Landlord's lien. Landlord may collect a charge for packing, removing, or storing property seized in addition to any other amounts Landlord is entitled to receive. Landlord may sell or dispose of any seized property in accordance with the provisions of §54.045, Property Code.

- 24. SUBORDINATION:** This lease and Tenant's leasehold interest are and will be subject, subordinate, and inferior to: (i) any lien or encumbrance now or later placed on the Property by Landlord; (ii) all advances made under any such lien or encumbrance; (iii) the interest payable on any such lien or encumbrance; (iv) any and all renewals and extensions of any such lien or encumbrance; (v) any restrictive covenant; and (vi) the rights of any owners' association affecting the Property.

## ADDENDUM REGARDING RENTAL FLOOD DISCLOSURE

USE OF THIS FORM BY PERSONS WHO ARE NOT MEMBERS OF THE TEXAS ASSOCIATION OF REALTORS®, INC. IS NOT AUTHORIZED.  
©Texas Association of REALTORS®, Inc. 2021.

**ADDENDUM TO RESIDENTIAL LEASE CONCERNING THE PROPERTY AT 917 S 19th St,  
Temple, TX 76504-5422**

**THIS ADDENDUM IS A DISCLOSURE OF LANDLORDS' KNOWLEDGE AS OF THE DATE SIGNED BY THE LANDLORD. IT IS NOT A WARRANTY OF ANY KIND NOR A PREDICTION OF FUTURE EVENTS BY LANDLORD, LANDLORD'S AGENTS, OR ANY OTHER AGENT.**

- A. 100-YEAR FLOODPLAIN.** Landlord ☐ is or ☒ is not aware that the dwelling you are renting is located in a 100-year floodplain. If neither box is checked, you should assume the dwelling is in a 100-year floodplain. Even if the dwelling is not in a 100-year floodplain, the dwelling may still be susceptible to flooding. The Federal Emergency Management Agency (FEMA) maintains a flood map on its Internet website that is searchable by address, at no cost, to determine if a dwelling is located in a flood hazard area. Most tenant insurance policies do not cover damages or loss incurred in a flood. You should seek insurance coverage that would cover losses caused by a flood.
- B. DAMAGE TO A DWELLING DUE TO FLOODING DURING THE LAST FIVE-YEAR PERIOD.** Landlord ☐ is or ☒ is not aware that the dwelling you are renting has flooded at least once within the last five years.

*\*For purposes of this notice:*

*"100-year floodplain" means any area of land designated as a flood hazard area with a one percent or greater chance of flooding each year by the Federal Emergency Management Agency under the National Flood Insurance Act of 1968 (42 U.S.C. Section 4001 et seq.). A landlord is not required to disclose on the notice that the landlord is aware that a dwelling is located in a 100-year floodplain if the elevation of the dwelling is raised above the 100-year floodplain flood levels in accordance with federal regulations.*

*"Flooding" means a general or temporary condition of partial or complete inundation of a dwelling caused by: (A) the overflow of inland or tidal waters; (B) the unusual and rapid accumulation of runoff or surface waters from any established water source such as a river, stream, or drainage ditch; or (C) excessive rainfall.*

The undersigned Tenant acknowledges receipt of the foregoing notice.

# Protect Your Family From Lead in Your Home

March 2021

TXR-2511

# Are You Planning to Buy or Rent a Home Built Before 1978?

---

Did you know that many homes built before 1978 have **lead-based paint**? Lead from paint, chips, and dust can pose serious health hazards.

## Read this entire brochure to learn:

- How lead gets into the body
- How lead affects health
- What you can do to protect your family
- Where to go for more information

## Before renting or buying a pre-1978 home or apartment, federal law requires:

- Sellers must disclose known information on lead-based paint or lead-based paint hazards before selling a house.
- Real estate sales contracts must include a specific warning statement about lead-based paint. Buyers have up to 10 days to check for lead.
- Landlords must disclose known information on lead-based paint and lead-based paint hazards before leases take effect. Leases must include a specific warning statement about lead-based paint.

## If undertaking renovations, repairs, or painting (RRP) projects in your pre-1978 home or apartment:

- Read EPA's pamphlet, *The Lead-Safe Certified Guide to Renovate Right*, to learn about the lead-safe work practices that contractors are required to follow when working in your home (see page 12).

## Simple Steps to Protect Your Family from Lead Hazards

### If you think your home has lead-based paint:

- Don't try to remove lead-based paint yourself.
- Always keep painted surfaces in good condition to minimize deterioration.
- Get your home checked for lead hazards. Find a certified inspector or risk assessor at [epa.gov/lead](https://www.epa.gov/lead).
- Talk to your landlord about fixing surfaces with peeling or chipping paint.
- Regularly clean floors, window sills, and other surfaces.
- Take precautions to avoid exposure to lead dust when remodeling.
- When renovating, repairing, or painting, hire only EPA- or state-approved Lead-Safe certified renovation firms.
- Before buying, renting, or renovating your home, have it checked for lead-based paint.
- Consult your health care provider about testing your children for lead. Your pediatrician can check for lead with a simple blood test.
- Wash children's hands, bottles, pacifiers, and toys often.
- Make sure children eat healthy, low-fat foods high in iron, calcium, and vitamin C.
- Remove shoes or wipe soil off shoes before entering your house.

# Lead Gets into the Body in Many Ways

---

## Adults and children can get lead into their bodies if they:

- Breathe in lead dust (especially during activities such as renovations, repairs, or painting that disturb painted surfaces).
- Swallow lead dust that has settled on food, food preparation surfaces, and other places.
- Eat paint chips or soil that contains lead.

## Lead is especially dangerous to children under the age of 6.

- At this age, children's brains and nervous systems are more sensitive to the damaging effects of lead.
- Children's growing bodies absorb more lead.
- Babies and young children often put their hands and other objects in their mouths. These objects can have lead dust on them.

## Women of childbearing age should know that lead is dangerous to a developing fetus.

- Women with a high lead level in their system before or during pregnancy risk exposing the fetus to lead through the placenta during fetal development.

# Health Effects of Lead

**Lead affects the body in many ways.** It is important to know that even exposure to low levels of lead can severely harm children.

## In children, exposure to lead can cause:

- Nervous system and kidney damage
- Learning disabilities, attention deficit disorder, and decreased intelligence
- Speech, language, and behavior problems
- Poor muscle coordination
- Decreased muscle and bone growth
- Hearing damage

While low-lead exposure is most common, exposure to high amounts of lead can have devastating effects on children, including seizures, unconsciousness, and, in some cases, death.

Although children are especially susceptible to lead exposure, lead can be dangerous for adults, too.

## In adults, exposure to lead can cause:

- Harm to a developing fetus
- Increased chance of high blood pressure during pregnancy
- Fertility problems (in men and women)
- High blood pressure
- Digestive problems
- Nerve disorders
- Memory and concentration problems
- Muscle and joint pain

## Check Your Family for Lead

---

**Get your children and home tested if you think your home has lead.**

Children's blood lead levels tend to increase rapidly from 6 to 12 months of age, and tend to peak at 18 to 24 months of age.

Consult your doctor for advice on testing your children. A simple blood test can detect lead. Blood lead tests are usually recommended for:

- Children at ages 1 and 2
- Children or other family members who have been exposed to high levels of lead
- Children who should be tested under your state or local health screening plan

**Your doctor can explain what the test results mean and if more testing will be needed.**

## Where Lead-Based Paint Is Found

---

In general, the older your home or childcare facility, the more likely it has lead-based paint.<sup>1</sup>

**Many homes, including private, federally-assisted, federally-owned housing, and childcare facilities built before 1978 have lead-based paint.** In 1978, the federal government banned consumer uses of lead-containing paint.<sup>2</sup>

Learn how to determine if paint is lead-based paint on page 7.

### Lead can be found:

- In homes and childcare facilities in the city, country, or suburbs,
- In private and public single-family homes and apartments,
- On surfaces inside and outside of the house, and
- In soil around a home. (Soil can pick up lead from exterior paint or other sources, such as past use of leaded gas in cars.)

Learn more about where lead is found at [epa.gov/lead](https://www.epa.gov/lead).

---

<sup>1</sup> “Lead-based paint” is currently defined by the federal government as paint with lead levels greater than or equal to 1.0 milligram per square centimeter (mg/cm<sup>2</sup>), or more than 0.5% by weight.

<sup>2</sup> “Lead-containing paint” is currently defined by the federal government as lead in new dried paint in excess of 90 parts per million (ppm) by weight.

# Identifying Lead-Based Paint and Lead-Based Paint Hazards

---

**Deteriorated lead-based paint (peeling, chipping, chalking, cracking, or damaged paint)** is a hazard and needs immediate attention. **Lead-based paint** may also be a hazard when found on surfaces that children can chew or that get a lot of wear and tear, such as:

- On windows and window sills
- Doors and door frames
- Stairs, railings, banisters, and porches

**Lead-based paint is usually not a hazard if it is in good condition** and if it is not on an impact or friction surface like a window.

**Lead dust** can form when lead-based paint is scraped, sanded, or heated. Lead dust also forms when painted surfaces containing lead bump or rub together. Lead paint chips and dust can get on surfaces and objects that people touch. Settled lead dust can reenter the air when the home is vacuumed or swept, or when people walk through it. EPA currently defines the following levels of lead in dust as hazardous:

- 10 micrograms per square foot ( $\mu\text{g}/\text{ft}^2$ ) and higher for floors, including carpeted floors
- 100  $\mu\text{g}/\text{ft}^2$  and higher for interior window sills

**Lead in soil** can be a hazard when children play in bare soil or when people bring soil into the house on their shoes. EPA currently defines the following levels of lead in soil as hazardous:

- 400 parts per million (ppm) and higher in play areas of bare soil
- 1,200 ppm (average) and higher in bare soil in the remainder of the yard

**Remember, lead from paint chips - which you can see - and lead dust - which you may not be able to see - both can be hazards.**

The only way to find out if paint, dust, or soil lead hazards exist is to test for them. The next page describes how to do this.

# Checking Your Home for Lead

---

You can get your home tested for lead in several different ways:

- A lead-based paint **inspection** tells you if your home has lead-based paint and where it is located. It won't tell you whether your home currently has lead hazards. A trained and certified testing professional, called a lead-based paint inspector, will conduct a paint inspection using methods, such as:
  - Portable x-ray fluorescence (XRF) machine
  - Lab tests of paint samples
- A **risk assessment** tells you if your home currently has any lead hazards from lead in paint, dust, or soil. It also tells you what actions to take to address any hazards. A trained and certified testing professional, called a risk assessor, will:
  - Sample paint that is deteriorated on doors, windows, floors, stairs, and walls
  - Sample dust near painted surfaces and sample bare soil in the yard
  - Get lab tests of paint, dust, and soil samples
  - A combination inspection and risk assessment tells you if your home has any lead-based paint and if your home has any lead hazards, and where both are located.

Be sure to read the report provided to you after your inspection or risk assessment is completed, and ask questions about anything you do not understand.

## Checking Your Home for Lead, continued

---

In preparing for renovation, repair, or painting work in a pre-1978 home, Lead-Safe Certified renovators (see page 12) may:

- Take paint chip samples to determine if lead-based paint is present in the area planned for renovation and send them to an EPA-recognized lead lab for analysis. In housing receiving federal assistance, the person collecting these samples must be a certified lead-based paint inspector or risk assessor
- Use EPA-recognized tests kits to determine if lead-based paint is absent (but not in housing receiving federal assistance)
- Presume that lead-based paint is present and use lead-safe work practices

There are state and federal programs in place to ensure that testing is done safely, reliably, and effectively. Contact your state or local agency for more information, visit [epa.gov/lead](https://epa.gov/lead), or call **1-800-424-LEAD (5323)** for a list of contacts in your area.<sup>3</sup>

<sup>3</sup> Hearing- or speech-challenged individuals may access this number through TTY by calling the Federal Relay Service at 1-800-877-8339.

# What You Can Do Now to Protect Your Family

---

**If you suspect that your house has lead-based paint hazards, you can take some immediate steps to reduce your family's risk:**

- If you rent, notify your landlord of peeling or chipping paint.
- Keep painted surfaces clean and free of dust. Clean floors, window frames, window sills, and other surfaces weekly. Use a mop or sponge with warm water and a general all-purpose cleaner. (Remember: never mix ammonia and bleach products together because they can form a dangerous gas.)
- Carefully clean up paint chips immediately without creating dust.
- Thoroughly rinse sponges and mop heads often during cleaning of dirty or dusty areas, and again afterward.
- Wash your hands and your children's hands often, especially before they eat and before nap time and bed time.
- Keep play areas clean. Wash bottles, pacifiers, toys, and stuffed animals regularly.
- Keep children from chewing window sills or other painted surfaces, or eating soil.
- When renovating, repairing, or painting, hire only EPA- or state-approved Lead-Safe Certified renovation firms (see page 12).
- Clean or remove shoes before entering your home to avoid tracking in lead from soil.
- Make sure children eat nutritious, low-fat meals high in iron, and calcium, such as spinach and dairy products. Children with good diets absorb less lead.

# Reducing Lead Hazards

**Disturbing lead-based paint or removing lead improperly can increase the hazard to your family by spreading even more lead dust around the house.**

- In addition to day-to-day cleaning and good nutrition, you can **temporarily** reduce lead-based paint hazards by taking actions, such as repairing damaged painted surfaces and planting grass to cover lead-contaminated soil. These actions are not permanent solutions and will need ongoing attention.
- You can minimize exposure to lead when renovating, repairing, or painting by hiring an EPA- or state-certified renovator who is trained in the use of lead-safe work practices. If you are a do-it-yourselfer, learn how to use lead-safe work practices in your home.
- To remove lead hazards permanently, you should hire a certified lead abatement contractor. Abatement (or permanent hazard elimination) methods include removing, sealing, or enclosing lead-based paint with special materials. Just painting over the hazard with regular paint is not permanent control.

**Always use a certified contractor who is trained to address lead hazards safely.**

- Hire a Lead-Safe Certified firm (see page 12) to perform renovation, repair, or painting (RRP) projects that disturb painted surfaces.
- To correct lead hazards permanently, hire a certified lead abatement professional. This will ensure your contractor knows how to work safely and has the proper equipment to clean up thoroughly.

Certified contractors will employ qualified workers and follow strict safety rules as set by their state or by the federal government.

## Reducing Lead Hazards, continued

---

**If your home has had lead abatement work done** or if the housing is receiving federal assistance, once the work is completed, dust cleanup activities must be conducted until clearance testing indicates that lead dust levels are below the following levels:

- 10 micrograms per square foot ( $\mu\text{g}/\text{ft}^2$ ) for floors, including carpeted floors
- 100  $\mu\text{g}/\text{ft}^2$  for interior windows sills
- 400  $\mu\text{g}/\text{ft}^2$  for window troughs

**Abatements are designed to permanently eliminate lead-based paint hazards.** However, lead dust can be reintroduced into an abated area.

- Use a HEPA vacuum on all furniture and other items returned to the area, to reduce the potential for reintroducing lead dust.
- Regularly clean floors, window sills, troughs, and other hard surfaces with a damp cloth or sponge and a general all-purpose cleaner.

Please see page 9 for more information on steps you can take to protect your home after the abatement. For help in locating certified lead abatement professionals in your area, call your state or local agency (see pages 15 and 16), [epa.gov/lead](https://www.epa.gov/lead), or call 1-800-424-LEAD.

# Renovating, Remodeling, or Repairing (RRP) a Home with Lead-Based Paint

If you hire a contractor to conduct renovation, repair, or painting (RRP) projects in your pre-1978 home or childcare facility (such as pre-school and kindergarten), your contractor must:

- Be a Lead-Safe Certified firm approved by EPA or an EPA-authorized state program
- Use qualified trained individuals (Lead-Safe Certified renovators) who follow specific lead-safe work practices to prevent lead contamination
- Provide a copy of EPA's lead hazard information document, *The Lead-Safe Certified Guide to Renovate Right*

RRP contractors working in pre-1978 homes and childcare facilities must follow lead-safe work practices that:

- **Contain the work area.** The area must be contained so that dust and debris do not escape from the work area. Warning signs must be put up, and plastic or other impermeable material and tape must be used.
- **Avoid renovation methods that generate large amounts of lead-contaminated dust.** Some methods generate so much lead-contaminated dust that their use is prohibited. They are:
  - Open-flame burning or torching
  - Sanding, grinding, planing, needle gunning, or blasting with power tools and equipment not equipped with a shroud and HEPA vacuum attachment
  - Using a heat gun at temperatures greater than 1100°F
- **Clean up thoroughly.** The work area should be cleaned up daily. When all the work is done, the area must be cleaned up using special cleaning methods.
- **Dispose of waste properly.** Collect and seal waste in a heavy duty bag or sheeting. When transported, ensure that waste is contained to prevent release of dust and debris.

To learn more about EPA's requirements for RRP projects visit [epa.gov/getleadsafe](http://epa.gov/getleadsafe), or read *The Lead-Safe Certified Guide to Renovate Right*.

## Other Sources of Lead

---

### Lead in Drinking Water

The most common sources of lead in drinking water are lead pipes, faucets, and fixtures.

Lead pipes are more likely to be found in older cities and homes built before 1986.

You can't smell or taste lead in drinking water.

To find out for certain if you have lead in drinking water, have your water tested.

Remember older homes with a private well can also have plumbing materials that contain lead.

### Important Steps You Can Take to Reduce Lead in Drinking Water

- # Use only cold water for drinking, cooking and making baby formula. Remember, boiling water does not remove lead from water.
- # Before drinking, flush your home's pipes by running the tap, taking a shower, doing laundry, or doing a load of dishes.
- # Regularly clean your faucet's screen (also known as an aerator).
- # If you use a filter certified to remove lead, don't forget to read the directions to learn when to change the cartridge. Using a filter after it has expired can make it less effective at removing lead.

Contact your water company to determine if the pipe that connects your home to the water main (called a service line) is made from lead. Your area's water company can also provide information about the lead levels in your system's drinking water.

For more information about lead in drinking water, please contact EPA's Safe Drinking Water Hotline at 1-800-426-4791. If you have other questions about lead poisoning prevention, call 1-800 424-LEAD.\*

Call your local health department or water company to find out about testing your water, or visit [epa.gov/safewater](https://www.epa.gov/safewater) for EPA's lead in drinking water information. Some states or utilities offer programs to pay for water testing for residents. Contact your state or local water company to learn more.

- # **Lead smelters** or other industries that release lead into the air.
- # **Your job.** If you work with lead, you could bring it home on your body or clothes. Shower and change clothes before coming home. Launder your work clothes separately from the rest of your family's clothes.
- # **Hobbies** that use lead, such as making pottery or stained glass, or refinishing furniture. Call your local health department for information about hobbies that may use lead.
- # Old **toys** and **furniture** may have been painted with lead-containing paint. Older toys and other children's products may have parts that contain lead.<sup>4</sup>
- # Food and liquids cooked or stored in **lead crystal** or **lead-glazed pottery or porcelain** may contain lead.
- # Folk remedies, such as “**greta**” and “**azarcon**,” used to treat an upset stomach.

---

<sup>4</sup> In 1978, the federal government banned toys, other children's products, and furniture with lead-containing paint. In 2008, the federal government banned lead in most children's products. The federal government currently bans lead in excess of 100 ppm by weight in most children's products.

# IMPORTANT!

## **Lead From Paint, Dust, and Soil in and Around Your Home Can Be Dangerous if Not Managed Properly**

- Children under 6 years old are most at risk for lead poisoning in your home.
- Lead exposure can harm young children and babies even before they are born.
- Homes, schools, and child care facilities built before 1978 are likely to contain lead-based paint.
- Even children who seem healthy may have dangerous levels of lead in their bodies.
- Disturbing surfaces with lead-based paint or removing lead-based paint improperly can increase the danger to your family.
- People can get lead into their bodies by breathing or swallowing lead dust, or by eating soil or paint chips containing lead.
- People have many options for reducing lead hazards. Generally, lead-based paint that is in good condition is not a hazard (see page 10).

## Information About Brokerage Services

*Texas law requires all real estate licensees to give the following information about brokerage services to prospective buyers, tenants, sellers and landlords.*

### TYPES OF REAL ESTATE LICENSE HOLDERS:

- **A BROKER** is responsible for all brokerage activities, including acts performed by sales agents sponsored by the broker.
- **A SALES AGENT** must be sponsored by a broker and works with clients on behalf of the broker.

### A BROKER'S MINIMUM DUTIES REQUIRED BY LAW (A client is the person or party that the broker represents):

- Put the interests of the client above all others, including the broker's own interests;
- Inform the client of any material information about the property or transaction received by the broker;
- Answer the client's questions and present any offer to or counter-offer from the client; and
- Treat all parties to a real estate transaction honestly and fairly.

### A LICENSE HOLDER CAN REPRESENT A PARTY IN A REAL ESTATE TRANSACTION:

**AS AGENT FOR OWNER (SELLER/LANDLORD):** The broker becomes the property owner's agent through an agreement with the owner, usually in a written listing to sell or property management agreement. An owner's agent must perform the broker's minimum duties above and must inform the owner of any material information about the property or transaction known by the agent, including information disclosed to the agent or subagent by the buyer or buyer's agent.

**AS AGENT FOR BUYER/TENANT:** The broker becomes the buyer/tenant's agent by agreeing to represent the buyer, usually through a written representation agreement. A buyer's agent must perform the broker's minimum duties above and must inform the buyer of any material information about the property or transaction known by the agent, including information disclosed to the agent by the seller or seller's agent.

**AS AGENT FOR BOTH - INTERMEDIARY:** To act as an intermediary between the parties the broker must first obtain the written agreement of each party to the transaction. The written agreement must state who will pay the broker and, in conspicuous bold or underlined print, set forth the broker's obligations as an intermediary. A broker who acts as an intermediary:

- Must treat all parties to the transaction impartially and fairly;
- May, with the parties' written consent, appoint a different license holder associated with the broker to each party (owner and buyer) to communicate with, provide opinions and advice to, and carry out the instructions of each party to the transaction.
- Must not, unless specifically authorized in writing to do so by the party, disclose:
  - that the owner will accept a price less than the written asking price;
  - that the buyer/tenant will pay a price greater than the price submitted in a written offer; and
  - any confidential information or any other information that a party specifically instructs the broker in writing not to disclose, unless required to do so by law.

**AS SUBAGENT:** A license holder acts as a subagent when aiding a buyer in a transaction without an agreement to represent the buyer. A subagent can assist the buyer but does not represent the buyer and must place the interests of the owner first.

### TO AVOID DISPUTES, ALL AGREEMENTS BETWEEN YOU AND A BROKER SHOULD BE IN WRITING AND CLEARLY ESTABLISH:

- The broker's duties and responsibilities to you, and your obligations under the representation agreement.
- Who will pay the broker for services provided to you, when payment will be made and how the payment will be calculated.

**LICENSE HOLDER CONTACT INFORMATION:** This notice is being provided for information purposes. It does not create an obligation for you to use the broker's services. Please acknowledge receipt of this notice below and retain a copy for your records.
