

1101 College Avenue • Suite 140 • Santa Rosa, CA 95404
(707) 524-8380

1. Residency and Financials

1.1 PARTIES AND OCCUPANTS

This Lease Agreement, created on **03/08/2023** between **Elaine Betterton**, herein called Landlord, and **Jane Wanjiku, Alex M. IKANDU, Harriet K. Ikandu, Justin M. Ikandu**, herein called Tenant. Landlord hereby agrees to rent to Tenant the real property located at:

**2187 Hastings Court
Santa Rosa, CA 95405**

USE and OCCUPANCY

Property shall be used as a residence only. Operating a business from this property is prohibited. The premises are to be occupied as a residence and only those adults specifically named in this agreement, along with their dependents **Justin Ikandu, Harriet Ikandu, Jane Wanjiku, Alex Ikandu**, may occupy and use the premises. Occupancy by anyone other than those named above for more than 10 nights shall constitute a breach of the Lease Agreement unless prior consent is obtained in writing by Landlord.

NON-ASSIGNMENT OF RENTAL AGREEMENT

Tenant shall not sublet all or any part of the premises or assign or transfer this Agreement or any interest in it, without Landlord's prior written consent. Unless such consent is obtained, any assignment transfer or subletting of premises or this Agreement or tenancy, by voluntary act of Tenant, operation of law or otherwise, shall, at the option of Landlord terminate this Agreement. Any proposed assignee, transferee or sublessee shall submit to Landlord an application and credit information to Landlord's approval and, if approved, sign a separate written agreement with Landlord and Tenant. Landlord's consent to any one assignment, transfer or sublease, shall not be construed as consent to any subsequent assignment, transfer or sublease and does not release Tenant of Tenant's obligations under this Agreement.

SHORT-TERM RENTAL

Tenant is prohibited from offering all or part of the Premises for short-term rental, such as through AirBNB, VRBO, or other such sites or programs, regardless of any local laws that may be or have been enacted. Any advertising or on-line postings as well as actual rentals of the Premises to vacation or short-term guests shall constitute a material breach of this Agreement. Any person who is not a Tenant, as defined herein, who occupies any portion of the Premises, for any period of time whatsoever, for any compensation or consideration whatsoever (including, without limitation, the payment of money and/or trade and/or barter of other goods, services, or property occupancy rights) is NOT a guest, and such occupancy constitutes unauthorized subletting or assignment which is a substantial and material breach of this Agreement.

JOINT AND INDIVIDUAL OBLIGATIONS

If there is more than one Tenant, each one shall be individually and completely responsible for the performance of all obligations of Tenant under this Agreement, jointly and with every other Tenant, and individually, whether or not in possession.

POSSESSION

Tenant is not in possession of the premises. If Landlord is unable to deliver possession of premises on commencement date of this agreement, such date shall be extended to the date on which possession is made available to Tenant. If Landlord is unable to deliver possession within 5 calendar days after agreed commencement date, Tenant may terminate this Agreement by giving written notice to Landlord and shall be refunded all rent and security deposit paid. Possession is deemed terminated when Tenant has returned all keys to the premises to Landlord.

1.2 LEASE DURATION

Commencing on the **03/11/2023** and ending on **02/29/2024**. Thirty (30) days written notice is required by either party to terminate this Agreement at the scheduled lease expiration date. **If no notice is given by either party, this Agreement will continue on a month-to-month basis.** Tenant may then terminate tenancy by providing thirty (30) days **written notice (texts and/or verbal notice is not acceptable notice)**. Landlord may terminate the tenancy by providing written notice as provided by law. Landlord rents the premises to Tenant with the following terms and conditions.

CONFIRMATION OF REAL ESTATE AGENCY RELATIONSHIPS

Pure Property Management, Inc. is the agent of the Landlord exclusively.

1.3 MOVE IN COSTS

The following amounts must be received from Tenant prior to delivering possession of the property. **Landlord requires move-in funds to be in the form of cashier's check or money order if move-in date is less than 7 business days from signing this agreement.**

Monthly Rent: **\$3,800.00**

Security Deposit: **\$0.00**

Total Charges Due on or before Move-In: **\$3,934.00**

A pro-rated rent of **\$2,574.19** will be due on the first of the month following move-in.

1.4 RENTS AND CHARGES

RENT

"Rent" shall mean all monetary obligations of Tenant to Landlord under the terms of the Agreement, except security deposit. Tenants agree to pay Landlord the sum of **\$3,800.00** due and payable monthly in advance on or before the first (1st) of each month during the term of this Agreement. If rent is not personally received by 5:00pm on the third (3rd) day of the month, then it will be considered by all parties to be late. If the 3rd day of the month is a Sunday, late fees will be assessed as of 5:00 pm on the 4th. If Tenant chooses to mail rental payment, they assume the risk of late arrival.

The total amount of the rent due under the terms of this Agreement is: **\$44,374.19**

PAYMENT OF RENT

Monthly payments may be made by personal check, including electronic funds transfer. No personal checks will be accepted after the 6th day of the month or in response to a notice to pay rent or quit or a notice to perform covenant or quit requiring a payment. The normal hours available to make payments in person are from 8:00am to 5pm on weekdays. A 24 hour, seven days a week rent payment drop slot is available at the address below. If any payment is returned for non-sufficient funds or because tenant stops payment, then after that Landlord may, in writing, require Tenant to pay rent in cashier's check for three months. If any subsequent rent is returned, for any reason, Landlord may require all future rent to be paid by cashier's check or money order. Rent received may be applied first to any outstanding charges. Time is of the essence and no excuses will be accepted. Rent shall be made payable to:

PURE Property Management

1101 College Ave. #140 Santa Rosa CA 95404

707-542-4700

LATE CHARGE AND RETURNED CHECKS

Tenant acknowledges either late payment of Rent or issuance of a returned check may cause Landlord to incur costs and expenses, the exact amounts of which are extremely difficult and impractical to determine. These costs may include, but are not limited to, processing, enforcement, and accounting expenses. If any installment of rent due from Tenant is not received by Landlord by **5:00pm on the third (3rd) day of the month**, or if a check is returned, regardless of cause, Tenant shall pay a late charge equal to five percent (5%) of such overdue amount and \$25.00 as a returned item fee, either or both of which shall be deemed additional rent.

Landlord and Tenant agree that these charges represent a fair and reasonable estimate of the costs Landlord may incur by reason of Tenant's late or NSF payment. Any Late Charge or NSF fee due shall be paid with the current installment of Rent. Landlord's acceptance of any Late Charge or NSF fee shall not constitute a waiver as to any default of Tenant. Landlord's right to collect a Late Charge or NSF fee shall not be deemed an extension of the date Rent is due under paragraph 1 or prevent Landlord from exercising any other rights and remedies under this Agreement and as provided by law. **The late charge will be strictly enforced without exception or waiver.**

LEGAL OBLIGATIONS

Tenant hereby acknowledges that he has a legal obligation to pay his rent on time each and every month regardless of any other debts or responsibilities he may have. Tenant agrees that he will be fully responsible for any back rent owed and acknowledges that defaulting on this lease agreement could result in a judgment against him and/or a lien filed against his current assets and/or earnings. Tenant further acknowledges and accepts that late payments or non-payments of rent may be filed with credit reporting agencies.

SERVICE FEES

Tenant agrees to pay \$50.00 for each notice delivered to the premises by Landlord or Landlord's representative for non-payment of rent, eviction, notice for a lease violation and notice when Tenant has terminated any Tenant paid utilities.

1.5 SECURITY DEPOSIT

Tenant has agreed to pay a security deposit of **\$0.00** to be refunded as per California law. All or any portion of the security deposit may be used, as reasonably necessary, to: (i) cure Tenant's default in payment of Rent (which includes Late Charges, NSF fees or other sums due); (ii) repair damage, excluding ordinary wear and tear, caused by Tenant or by a guest or licensee of Tenant; (iii) clean Premises, if necessary, upon termination of the tenancy; and (iv) replace or return personal property or appurtenances. Unless otherwise required by law, no interest will be paid on this money at any time. **SECURITY DEPOSIT SHALL NOT BE USED BY TENANT IN LIEU OF PAYMENT OF LAST MONTH'S RENT.** If all or any portion of the security deposit is used during the tenancy, Tenant agrees to reinstate the total security deposit within five days after written notice is delivered to Tenant. Security deposit will not be returned until all Tenants have vacated the premises and all keys returned. Any security deposit returned by check shall be made out to all Tenants named on this Agreement, or as subsequently modified.

1.6 UTILITIES AND PROPERTY SERVICES

Tenant is responsible for all utilities and services not specifically mentioned as being provided. The following utilities and services are provided under the terms of this Lease Agreement: Pool & Hot Tub Service

Tenant shall pay any cost for conversion from existing utility service provider. Tenant specifically authorizes Landlord to deduct necessary funds for Tenant's unpaid bills from Tenant's deposit in the event they remain unpaid.

Landlord does not guarantee or warrant that there will be no interruption of utility service. Landlord is not responsible for damages, food spoilage, etc., in the event of a utility interruption. You should contact the utility service provider in the event of an interruption of service.

1.7 TENANT INSURANCE

Personal property of Tenant and/or guests of Tenant are not insured by Landlord, manager or, if applicable, HOA against loss or damage due to fire, theft, vandalism, rain, water damage, pipe leaks, criminal or negligent acts of others, or any other cause. **Tenant agrees to carry renters insurance to protect Tenant from any such loss or damage and to name PURE Property Management as additional interest. Tenant agrees to maintain coverage throughout their occupancy and is required to produce evidence of continuing coverage upon renewal each period. Policy coverage shall include a minimum of \$100,000 liability if no pets and a minimum of \$500,000 if Landlord has approved a pet dog. NOTE: no additional insurance will be required for an approved emotional/assistance animal.** Tenant is hereby notified that in the event of a loss or damage to the premises or the property within, due to Tenant negligence or malfunction of Tenant's property (such as a washing machine), Tenant is responsible for all damage and loss to the Premises to include but not limited to: cleanup, repairs, and replacement expenses to restore property and premises to original condition prior to the loss. Failure to maintain personal liability insurance is an incurable breach of this Lease Agreement and may result in termination of tenancy and eviction and/or any other remedies provided by this Lease Agreement or California statute.

1.8 KEYS, LOCKS AND CONTROLS

Tenant will be charged rent until all keys and controls, as listed below, are surrendered directly to Landlord. Tenants are not to leave keys at the property. If Tenant re-keys existing locks or opening devices, Tenant shall immediately deliver copies of all keys to Landlord. Tenant shall pay all costs and charges related to loss of any keys or opening devices. Tenant may not remove locks, even if installed by Tenant.

All deadlocks, keys, window latches, doorknobs and any additional device required by local government ordinance, will be in working order when you move in.

Tenant shall be liable for the entire cost of all of key and lock replacements during their tenancy. Tenant shall not change the locks or add a deadbolt lock without written consent.

All keys must be returned to us when you vacate the unit. Tenant will be charged for the cost of new locks and keys that are not returned at termination of tenancy.

1.9 AB 1482 COMPLIANCE

☒ NOTICE OF EXEMPTION FROM RENT CAP AND JUST CAUSE EVICTION LAW FOR SINGLE FAMILY RESIDENTIAL PROPERTY (INCLUDING CONDOMINIUMS AND UNITS IN PLANNED DEVELOPMENTS):

Landlord hereby notifies tenant that the Property is exempt from the rent cap provisions specified in Civil Code §1947.12 and the just cause eviction provisions specified in Civil Code §1946.2

This property is not subject to the rent limits imposed by Section 1947.12 of the Civil Code and is not subject to the just cause requirements of Section 1946.2 of the Civil Code. This property meets the requirements of Sections 1947.12(d)(5) and 1946.2(e)(8) of the Civil Code and the owner is not any of the following: (1) a real estate investment trust, as defined by Section 856 of the Internal Revenue Code; (2) a corporation; or (3) a limited liability company in which at least one member is a corporation.

-OR-

☐ NOTICE OF RENT CAP AND JUST CAUSE EVICTION LAW

Landlord hereby notifies tenant that the Property is subject to the rent cap provisions specified in Civil Code §1947.12 and the just cause eviction provisions specified in Civil Code §1946.2

California law limits the amount your rent can be increased. See Section 1947.12 of the Civil Code for more information. California law also provides that after all of the tenants have continuously and lawfully occupied the property for 12 months or more or at least one of the tenants has continuously and lawfully occupied the property for 24 months or more, a landlord must provide a statement of cause in any notice to terminate a tenancy. See Section 1946.2 of the Civil Code for more information. This lease may be terminated if the owner, their spouse, domestic partner, children, grandchildren, parents or grandparents unilaterally decide to occupy the referenced real property.

By initialing below, you acknowledge and agree to the terms in Section 1.

2. Policies and Procedures

2.1 COMMUNITY POLICIES AND GENERAL RULES

RULES AND REGULATIONS

Tenant agrees to comply with all CC&R's, and with the Rules and Regulations printed as an attachment to this document. Tenant further agrees to comply with any decisions made by homeowner associations that are posted on the premises or delivered to Tenant or adopted by homeowner association. Tenants understand they will be responsible for any fines or charges levied due to any violations.

PROHIBITIONS AGAINST VIOLATING LAWS AND CAUSING DISTURBANCES

Tenants shall be entitled to quiet enjoyment of the premises. Tenants and their guests or invitees shall not use the premises or adjacent areas in such a way as to: (1) violate any law or ordinance, including laws prohibiting the use, possession, or sale of illegal drugs; (2) commit waste or nuisance; or (3) annoy, disturb, inconvenience or interfere with the quiet enjoyment and peace and quiet of any other nearby resident.

SATELLITE DISHES

Owner will permit Tenant to install a satellite dish for personal, private use on the premises under the following conditions:

1. The satellite dish must be one meter or less in diameter;
2. The satellite dish may only be installed on the inside balcony, patio or terrace that is under the exclusive control of Tenant. Said satellite dish, or any part thereof, shall not extend beyond the balcony, patio or terrace railing;
3. Tenant is specifically prohibited from making physical modifications to the premises and is prohibited from installing said satellite dish in the common areas of the premises, including but not limited to, outside walls, roofs, windowsills, common balconies or stairways; **No running or attaching cabling on the exterior of the building for more than two (2) feet. Cabling must run in the crawl space or attic, not on the exterior of the building and not attached to the interior walls and run around the perimeter of any interior room. Tenant is responsible for removal of satellite dish and any cabling upon vacating the property in a manner that does not cause any damage to the property.**
4. Tenant shall not install said satellite dish in a manner which causes physical or structural damage to the premises, excluding ordinary wear and tear, including but not limited to, holes drilled through exterior walls or roofing.
5. Tenant shall install, maintain, and remove said satellite dish in a manner that is consistent with industry standards and shall be liable for any damage or injury sustained as a result of the negligent installation, maintenance or removal of said satellite dish.
6. Tenant shall indemnify, defend, and hold Owner and/or Owner's agent harmless for any damage or injury resulting from said negligence, including paying Owner's and/or Owner's agent's attorney's fees and costs.

2.2 TENANT SAFETY AND PROPERTY LOSS

MEGAN'S LAW

Registered Sex Offenders Notice: Pursuant to Section 290.46 of the Penal Code, information about specified registered sex offenders is made available to the public via an Internet Web site maintained by the Department of Justice at www.meganslaw.ca.gov. Depending on an offender's criminal history, this information will include either the address at which the offender resides or the community of residence and ZIP Code in which he or she resides.

SAFETY AND CRIME FREE

Tenant or any guest or resident under tenant's control, should not engage in any criminal activity in the residence or community.

In case of emergency, fire, accident, smoke, or suspected criminal activity, dial 911 or call emergency personnel. Tenant should then contact the offices of PURE Property Management 707-542-4700. Unless otherwise provided by law, Landlord is not liable to Tenant or any guests or occupants for injury, damage, or loss to person or property caused by criminal conduct of other persons, including theft, burglary, assault, vandalism, or other crimes.

2.3 PARKING AND STORAGE

Tenant will park vehicles on the property at their own risk. If the property is equipped with a garage Tenant will first use the garage to park their vehicles(s). If property is situated in an HOA, Tenant agrees to abide by any parking regulations currently in place or amended at a later date. If property is situated in an HOA community or if there is more than one dwelling onsite, Landlord may regulate the time, manner, and place of parking all vehicles, bicycles, boats trailers or recreational vehicles. Landlord or HOA may have unauthorized or illegally parked vehicles towed under an appropriate statute. Vehicles are prohibited from parking on the premises if they are inoperable, have no current license, take up more than one parking space, are parked in a marked handicap space without proper handicap insignia, block other vehicles from exiting, are parked in a space not dedicated to parking, including, but not limited to, grass, sidewalks, patio, and fire lanes. Tenant is prohibited from performing mechanical work/maintenance on vehicles during their tenancy.

2.4 ANIMALS & PETS

Unless otherwise provided in California Civil Code Section 54.2, or other law, no animal or pet shall be kept on or about the property without Landlord's prior written consent except as agreed to below. If an animal or pet is added to the household at any time during the tenancy, Tenant must first submit an application to Landlord's approved pet screening service together with all required documentation. Pet Screening application must be submitted and approved BEFORE the animal is brought into the home.

The following animal and/or pet(s) have been approved by Landlord to be maintained at the residence:

Pets (including mammals, reptiles, birds, fish, and insects) are allowed only if Landlord has so authorized in writing. Tenant must remove an unauthorized animal within 24 hours of notice from Landlord or Tenant will be considered in default of this Lease Agreement. Landlord will authorize a service animal for a disabled person. Landlord may require a written statement from a person who can credibly speak to Tenant's disability and need for the service animal. Dogs: Tenant acknowledges that dogs must be on a leash and under control of a responsible person at all times when not inside the property or when present in a common area such as a shared patio, yard or being walked in the neighborhood. Tenant is responsible for picking up after their pet/animal and insuring proper disposal of animal waste. **If a pet dog has been approved by Landlord, Tenant agrees to maintain, and provide evidence of, a minimum of \$500,000 liability coverage on a renter's insurance policy.** Additional insurance is not required of an emotional support/service animal.

The Tenant is fully responsible for any damage to the premises of Landlord that may result from the maintenance of a pet or animal. Tenant agrees to pay for any and all pest (flea) control services during and upon termination of tenancy if necessary. After vacating premises, Tenant further agrees to have carpets professionally cleaned and deodorized using a company approved by Landlord.

By initialing below, you acknowledge and agree to the terms in Section 2.

Jane Wanjiku Justin M. Ikandu

X AL X HJ
Alex M. IKANDU Harriet K. Ikandu

3. Responsibilities

3.1 CONDITION OF PREMISES AND ALTERATIONS

ALTERATIONS & NON-LIABILITY

Tenant shall make no alterations, decorations, additions, or improvements in or to the property, including awnings or temporary shade structures without Landlord's written consent. Tenant agrees that any holes created by large nails, screws, etc., used to hang pictures will be patched in a satisfactory manner prior to move-out.

Tenant hereby agrees that any work or repairs that need to be done will be handled by competent professionals. If Tenant does any work themselves, they further agree that they will be legally responsible for any mishap or damage he does either to himself or to the property. Landlord, his agents, and representatives will be held harmless and free from liability.

CONDITION OF PREMISES

Tenant agrees to: (1) keep the premises clean and sanitary and in good repair and, upon termination of the tenancy, to return the premises to Landlord in a condition identical to that which existed when Tenants took occupancy, except for normal wear and tear; Tenants agree to have all carpets, tile and hardwood floors professionally cleaned by a vendor approved by Landlord at termination of tenancy; (2) immediately notify Landlord of any defects or dangerous conditions in and about the premises of which they become aware; and (3) reimburse Landlord, on demand by Landlord, for the cost of any repairs to the premises damaged by Tenants or their guests or invitees through misuse or neglect.

Tenants acknowledge that they have examined the premises, including appliances, fixtures, carpets, drapes and paint, and agree to accept property in "**as is**" condition. Prior to or upon moving into the premises, Landlord will complete a Property Condition Report, which will be provided to Tenant. Tenant is given one (1) week from date of occupancy in which to complete a New Tenancy Condition Report to amend the inspection report. Failure to amend report within the one (1) week period shall constitute acceptance of the Property Condition Report as written.

MAINTENANCE OF LAWNS AND LANDSCAPE

Tenant understands that at all times Tenant is responsible for keeping all outside areas free of garbage, debris, animal feces, and or any other unsightly item. **Whether or not landscape service is provided by owner, Tenant acknowledges they will be held liable for any damages caused by animals, neglect, abuse, or lack of water.** If landscape service is provided by Owner, it is a Tenant responsibility, as the individual(s) residing at the property, to promptly report in writing:

- any change in the appearance of the landscape due to lack of water or over watering
- any prolonged failure of landscaping service to properly maintain the landscape in a well-manicured state
- all required written notifications may be submitted via the Tenant Portal by initiating a maintenance request. Note: pictures can be attached to any maintenance request and are helpful in identifying and documenting issues.

If gardening service is not provided, Tenants acknowledge that they are responsible for maintaining the lawns and landscape by watering, weeding, fertilizing, mowing and shaping as necessary. Tenant's failure to maintain the lawns and landscaping to the Owner's satisfaction shall give Owner the right to hire someone to perform such maintenance and charge Tenant to cover the cost of such maintenance.

3.2 SMOKE & CARBON MONOXIDE DETECTORS AND WATER HEATER CERTIFICATION

1. SMOKE DETECTORS: Landlord is aware that Section 13113.7 of the California Health and Safety Code requires that at the time a new tenancy is created, such residential dwelling in the State of California must have operable smoke detectors, approved, and listed by the State Fire Marshal and installed in accordance with the State Fire Marshall's regulations, which incorporate the California Building Code. The 1995 edition of the California Building Code provides:

"Sec. 310.9.1.4 Location within dwelling units. In dwelling units, a detector shall be installed in each sleeping room and at a point centrally located in the corridor or area giving access to each separate sleeping area. When the dwelling unit has more than one story and in dwellings with basements, a detector shall be installed on each story and in the basement. In dwelling units where a story or basement is split into two or more levels, the smoke detector shall be installed on the upper level, except that when the lower level contains a sleeping area, a detector shall be installed on each level. When sleeping rooms are on an upper level, the detector shall be placed at the ceiling of the upper level in close proximity to the stairway. In dwelling units where the ceiling height of a room open to the hallway serving the bedrooms exceeds that of the hallway by 24 inches (610 mm) or more, smoke detectors shall be installed in the hallway and in the adjacent room. Detectors shall sound an alarm audible in all sleeping areas of the dwelling unit in which they are located."

According to the State Fire Marshal, single-family dwellings which were built to building codes prior to the 1991 edition need to have the smoke detectors installed "at a point centrally located in the corridor or area giving access to each separate sleeping area." However, the State Fire Marshal strongly recommends that smoke detectors be installed in all sleeping rooms for the safety of the occupants.

2. CARBON MONOXIDE DETECTORS: § 13260 of the California Health and Safety Code requires that a carbon monoxide detector approved and listed with the State Fire Marshall be installed in all residential dwellings which contain "fossil-fuel burning devices" (such as a fireplace or gas heater) as well as in dwellings which have an attached garage.

3. WATER HEATER: Section 19211 of the California Health and Safety Code, as amended effective July 12, 1996, requires that "all new and replacement water heaters, and all existing residential water heaters shall be braced, anchored, or strapped to resist failing or horizontal displacement due to earthquake motion. At a minimum, any water heater shall be secured in accordance with the California Plumbing Code, or modifications made thereto" by a city or county. The Uniform Plumbing Code provides that "Strapping shall be at points within the upper one-third (1/3) and lower one-third (1/3) of its vertical dimensions. At the lower point, a minimum distance of four (4) inches (101.6 mm) shall be maintained above the controls with the strapping."

LANDLORD WARRANTS THAT THE PROPERTY HAS OPERABLE SMOKE DETECTORS AND CARBON MONOXIDE DETECTORS AS REQUIRED BY THE STATE FIRE MARSHAL'S REGULATIONS AND ANY LOCAL ORDINANCE, AND THAT THE HOT WATER HEATER(S) LOCATED IN THE ABOVE PROPERTY ARE SECURED AS REQUIRED BY LAW.

3.3 REQUESTS, REPAIRS, MALFUNCTIONS

TEMPORARY RELOCATION

Subject to local law, Tenant agrees, upon demand of Landlord, to temporarily vacate Premises for a reasonable period, to allow for fumigation (or other methods) to control wood destroying pests or organisms, or other repairs to premises. Tenant agrees to comply with all instructions and requirements necessary to prepare premises to accommodate pest control, fumigation, or other work. Tenant shall only be entitled to a credit of rent equal to the per diem rent for the period of time Tenant is required to vacate premises.

DAMAGE TO PREMISES

If by no fault of Tenant, the subject property is totally or partially damaged or destroyed by fire, earthquake, accident or other casualty that render the property totally or partially uninhabitable, either Landlord or Tenant may terminate this Agreement by giving the other written notice. Rent shall be abated as of the date the property becomes totally or partially uninhabitable. The abated amount shall be the currently monthly rent pro-rated on a 30-day period. If the Agreement is not terminated, Landlord shall promptly repair the damage, and rent shall be reduced based on the extent to which the damage interferes with Tenant's reasonable use of the property. If damage occurs as a result of an act of Tenant or Tenant's guests, only Landlord shall have the right of termination and no reduction in rent shall be made.

REPAIR AND MAINTENANCE

Tenant shall properly use and operate all furnishings, appliances, electrical, gas and plumbing fixtures and keep them clean and sanitary. It is expected that Tenant, as the individual living in the property, will regularly check all areas close to a source of water (under sinks, behind toilets, walls adjacent to bathtubs and showers) to insure there are no unseen leaks. Tenant shall keep cabinetry underneath sinks reasonably clear of storage so area is accessible for visual monitoring. Tenant shall report any damage or problem immediately and agrees to pay for all repairs or replacements caused by Tenant, Tenant's guests or invitees negligence or misuse. Landlord complying with or responding to any oral request regarding security or non-security matters doesn't waive the strict requirement for written notices under this Lease Agreement. Tenant must promptly notify Landlord in writing of: water leaks; electrical problems; malfunctioning lights; broken or missing locks or latches; and other conditions that pose a hazard to the property, or health, or safety. Landlord will respond in accordance with state law and this Lease Agreement to repair or remedy the situation, as necessary. Landlord may turn off equipment and interrupt utilities as needed to avoid property damage or to perform work.

Under no circumstances will the Landlord be financially responsible for improvements or repairs made by Tenant, or caused to be made by Tenant, unless the Tenant was given written authorization to make repairs or improvements in advance.

DRAIN STOPPAGE

As of the date of this Agreement, Landlord warrants that the property's sewage drains are in good working order and that they will accept the normal household waste for which they were designed. They will not accept things such as cloth or disposable diapers, wipes of any kind (even those claiming they are "flushable"), sanitary napkins, tampons, children's toys, wads of toilet paper, accumulation of hair, grease, oil, table scraps, clothing, rags, sand, dirt, rocks, or newspapers. Tenants agree to pay for clearing the drains of any hard or soft blockages except those that a plumber, approved by Landlord, will attest in writing were caused by defective plumbing, tree roots, or acts of nature. A **hard blockage** is when some kind of debris – rock, a child's or dog's toy, etc. – finds its way into the drain line. A **soft blockage** has built up over time and is often made up of hair, grease, soap scum, toothpaste, shaving cream, hair products or similar.

3.4 RIGHT OF ENTRY AND INSPECTIONS

ACCESS TO PREMISES

Tenant shall make the property available to Landlord, Owner or Owner's representative for the purpose of entering to make necessary or agreed repairs, decorations, alterations, or improvements, or to supply necessary or agreed services, or to show premises to prospective or actual purchasers, tenants, mortgagees, lenders, appraisers, or contractors. Landlord and Tenant agree that 24 hour written notice shall be reasonable and sufficient notice. No written notice is required if Landlord and Tenant verbally agree to an entry for agreed services, repairs, or showings if the date and time of entry are within one week of the verbal agreement.

3.5 TENANT'S OBLIGATIONS UPON VACATING PREMISES

Upon termination of this Agreement, Tenant shall: 1) give Landlord all copies of keys or opening devices to premises, including any

common areas; 2) vacate and surrender premises to Landlord, empty of all persons; 3) vacate any/all parking and/or storage space; 4) remove all debris; 5) give written notice to Landlord of Tenant's forwarding address. All alterations/improvements made by or caused to be made by Tenant, with or without Landlord's consent, become the property of Landlord upon termination. Landlord may charge Tenant for restoration of the premises to the condition it was in prior to any alterations/improvements.

Surrender, abandonment, and eviction ends your right of possession for all purposes and gives landlord the immediate right to: clean up, make repairs in, and re-rent the property; determine any security deposit deductions; and remove personal belongings left in the property, subject to applicable law. Surrender, abandonment, and eviction affect Tenant's rights to any belongings left in the property. Surrender, abandonment, and eviction do not affect Landlord's mitigation obligations.

Cleaning and Painting

Tenant is responsible for having all flooring surfaces professionally cleaned at the termination of their tenancy using a vendor that is approved by Landlord. If Tenant desires, Landlord will have flooring surfaces professionally cleaned and deduct the expense from Tenant's security deposit. Tenant must thoroughly clean the unit, including doors, windows, furniture, bathrooms, kitchen appliances, patios, balconies, garages, carports, and storage rooms. Tenant will be provided with Move-Out Instructions when Notice to Terminate Tenancy is received or given.

Interior paint is expected to last approximately three years. If paint is needed upon your move-out, you will be charged a depreciated amount of the painting expense as follows:

- 100% if occupancy is 6 months or less
- 75% if occupancy was 6 months to 12 months
- 50% if occupancy is 13 months to 24 months
- 25% if occupancy is 25 months to 36 months

Any wall damage repair will be an additional charge regardless of length of occupancy. If additional labor is needed to remove stickers, crayon or other severe markings on walls or ceilings you will be responsible for the costs associated with removal.

Other Charges

Tenant is responsible for the following charges, if applicable: unpaid rent; unpaid utilities; unreimbursed service charges; repairs or other damages, excluding ordinary wear and tear; replacement cost of property that was in or attached to the residence and is missing; unreturned keys; missing or burned-out light bulbs; removing or rekeying unauthorized security devices or alarm systems; packing, removing, or storing property removed or stored; removing illegally parked vehicles; animal-related charges; government fees or fines against us for violation (by you, your occupant, or guest) of local ordinances relating to smoke detectors, false alarms, recycling, or other matters; late-payment and returned-check charges, plus attorney's fees, court costs, and filing fees actually paid; and other sums due under this Lease Contract.

Right to Pre-Move-Out Inspection and Repairs: After giving or receiving notice of termination of a tenancy, or before the end of a lease, Tenant has the right to request that an inspection of the premises take place prior to termination of the lease or rental. If Tenant requests such an inspection, Tenant shall be given an opportunity to remedy identified deficiencies prior to termination, consistent with the terms of this Agreement. Any repairs or alterations made to the premises as a result of this inspection shall be made at Tenant's expense. Repairs may be performed by Tenant or through others, who have adequate insurance and licenses and are approved by Landlord. The work shall comply with applicable law, including governmental permit, inspection, and approval requirements. Repairs shall be performed in a good, skillful manner with materials of quality and appearance comparable to existing materials. It is understood that exact restoration of appearance or cosmetic items following all repairs may not be possible. Tenant shall: a) obtain receipts for repairs performed by others; b) prepare a written statement indicating the repairs performed by Tenant and the date of such repairs; and c) provide copies of receipts and statements to Landlord prior to termination. This paragraph does not apply when the tenancy is terminated pursuant to California Code of Civil Procedure 1161(2), (3), or (4).

Deposit Refund

Landlord will mail to Tenant's forwarding address or, if none is provided, to the last known address your security-deposit refund (less lawful deductions) and an itemized accounting of any deductions no later than 21 (twenty-one) days after the Lease Agreement termination and delivery of possession to us.

By initialing below, you acknowledge and agree to the terms in Section 3.

4. General Clauses

4.1 TENANT ESTOPPEL CERTIFICATE

Tenant shall execute and return a tenant estoppel certificate delivered to Tenant by Landlord or Landlord's agent within 3 days after its receipt. Failure to comply with this requirement shall be deemed Tenant's acknowledgment that the tenant estoppel certificate is true and correct, and may be relied upon by a lender or purchaser.

4.2 SMOKE FREE ENVIRONMENT

Tenant agrees and acknowledges that the premises to be occupied by Tenant and members of Tenant's household have been designated as non-smoking. Tenant and members of Tenant's household shall not smoke anywhere in the residence, or on the premises, rented by Tenant nor shall Tenant permit any guests or visitors under the control of Tenant to smoke.

The term "smoking" means inhaling, exhaling, breathing, or carrying any lighted or heated cigar, cigarette, or other tobacco product or plant product in any manner or in any form. Smoking also includes use of an electronic cigarette, cigar, or pipe.

Tenant acknowledges any violation of this provision that is discovered during or at the end of their tenancy will result in additional cleaning and painting charges.

4.3 RELEASE FROM LEASE CONTRACT

EARLY TERMINATION OF LEASE

In the event of termination by Tenant prior to completion of the original term of the Agreement, Tenant shall be responsible for lost rent, rental commissions, advertising expenses and costs necessary to ready premises for re-rental (such as painting, cleaning and changing of locks). Tenant specifically authorizes Landlord to withhold from security deposit any amounts that remain unpaid at the time notice is given.

Military Personnel Clause

Tenant may terminate the Lease Agreement if you qualify for the provisions under Servicemembers Civil Relief Act (SCRA). Tenant agrees to provide written notice of termination as provided in the SCRA and provide proof of orders qualifying Tenant for this provision.

Damage to Premises

If, by no fault of Tenant, Premises are totally or partially damaged or destroyed by fire, earthquake, accident, flooding or other casualty that render Premises totally or partially uninhabitable, either Landlord or Tenant may terminate this Agreement by giving the other written notice. Rent shall be abated as of the date Premises become totally or partially uninhabitable. The abated amount shall be the current monthly Rent prorated on a 30-day period. If the Agreement is not terminated, Landlord shall promptly repair the damage, and Rent shall be reduced based on the extent to which the damage interferes with Tenant's reasonable use of Premises. If damage occurs as a result of an act of Tenant or Tenant's guests, only Landlord shall have the right of termination, and no reduction in Rent shall be made.

4.4 TENANT CHANGE REQUEST

1. Only Tenants that are approved by Landlord and incorporated into a written lease agreement, rental agreement or lease addendum are allowed to live in the subject property. Approval must be obtained IN ADVANCE of a change in Tenants under the terms of this lease agreement.
2. Final acceptance of a tenant change requires approval of new resident(s) and a fully executed Lease Amendment to the Lease Agreement or a new Lease Agreement signed by all parties.
3. Tenant changes are only allowed for Lease Agreements that have all financial obligations current and have no other outstanding issues.

4. An administrative fee will be charged to process a resident change and will be due upon approval of the new resident(s). The administrative fee will be charged as follows:
 1. \$150.00 - 1 new tenant
 2. \$300.00 - 2 - 3 new tenants
 3. \$400.00 - 4 or more new tenants
5. The new prospective tenant(s) must complete an application and the required application fee is excluded from the administrative fee.
6. Only approved applications will be considered for a tenant change.
7. Once a tenant change has been approved, a Lease Amendment will be drafted that removes the vacating tenant(s) and adds the new tenant(s) to the Lease Agreement.
8. Any transfer of security deposit funds must be negotiated between the new tenant(s), vacating resident(s) and the remaining tenant(s). The new tenant(s) takes on the obligation of returning the property to the condition documented as of the date of the original Lease Agreement.
9. All parties to the Lease Agreement remain jointly and severally liable to all Terms and Conditions of the Lease Agreement unless released in writing by PURE Property Management.

4.5 DEFAULT BY TENANT

Tenant will be in default if Tenant or any guest or occupant violates any terms of this Lease Agreement including but not limited to the following violations: failure to pay rent or other amounts that you owe when due; you or any guest or occupant violates community rules and regulations, or fire, safety, health, or criminal laws, or engages in dangerous behavior, regardless of whether or where arrest or conviction occurs; Tenant abandons the residence, gives incorrect or false answers in the rental application or provides false or fraudulent documentation requested by Landlord; any illegal drugs or paraphernalia are found in the residence; Tenant or any guest or occupant engages in any prohibited conduct.

Holdover

Tenant or any occupant, invitee or guest must not hold over beyond the date contained in your move-out notice to vacate (or beyond a different move-out dated agreed to by the parties in writing). If a holdover occurs, then Landlord shall be entitled to damages for the hold-over period plus any expenses incurred due to the breach of this condition of the Lease Agreement.

Other Remedies

If rent is delinquent, Tenant immediately forfeits all rights to occupy the residence any longer and if Tenant has not vacated the unit by the date specified in the Lease Agreement termination notice, Tenant is guilty of a misdemeanor. Each day of unlawful presence in the residence constitutes a separate offense. Landlord may report unpaid amounts to credit agencies if not prohibited by law or other ordinance. Upon Tenant's default and early move-out, Tenant will pay any amounts stated to be rental discounts or concessions, in addition to other sums due. Upon Tenant's default, Landlord has all other legal remedies, including suit for Lease Agreement termination, possession, damages, rent, and all other monies due. Landlord may turn any returned checks over to law enforcement officials for prosecution according to law.

4.6 PROPOSITION 65 WARNING DISCLOSURE

THIS PROPERTY MAY CONTAIN CHEMICALS KNOWN TO THE STATE OF CALIFORNIA TO CAUSE CANCER AND BIRTH DEFECTS OR OTHER REPRODUCTIVE HARM

Office of Environmental Health Hazard Assessment

Proposition 65 in Plain Language

REPRINTED WITH PERMISSION FROM CALIFORNIA APARTMENT ASSOCIATION FORM 2.8 (copyright 2002)

WHAT IS PROPOSITION 65?

In November 1986, California voters overwhelmingly approved an initiative to address growing concerns about exposures to toxic chemicals. That initiative became the Safe Drinking Water and Toxic Enforcement Act of 1986, better known by its original name.

WHAT DOES PROPOSITION 65 REQUIRE?

Proposition 65 requires the Governor to publish a list of chemicals that are known to the State of California to cause cancer, birth defects or other reproductive harm. Agents that cause cancer are called carcinogens; those that cause birth defects or other reproductive harm are called reproductive toxicants. This list must be updated at least once a year. Over 700 chemicals have been listed as of March 10, 2000.

Proposition 65 imposes certain controls that apply to chemicals that appear on this list. These controls are designed to protect California's drinking water sources from contamination by these chemicals, to allow California consumers to make informed choices about the products they purchase, and to enable residents or workers to take whatever action they deem appropriate to protect themselves from exposure to these harmful chemicals.

Thus, Proposition 65 also provides a market-based incentive for manufacturers to remove listed chemicals from their products.

The benefits of the Proposition have their costs. Businesses have incurred expenses to test products, develop alternatives, reduce discharges, provide warnings and otherwise comply with the requirements of the proposition. Recognizing that compliance with the proposition comes with a price, Cal/EPA and the Office of Environmental Health Hazard Assessment (the lead agency for Proposition 65 implementation) have worked hard to minimize any unnecessary regulatory burdens and ensure that placement of a chemical on the list is done in accordance with rigorous science in an open public process.

WHAT KIND OF CHEMICALS ARE ON THE LIST?

The list contains a wide range of chemicals, including dyes, solvents, pesticides, drugs, food additives, and byproducts of certain processes. These chemicals may be naturally occurring or synthetic. Some of them are ingredients of common household products, others are specialty chemicals used in very specific industrial applications.

HOW DOES A CHEMICAL GET LISTED?

The State of California relies upon information that already exists in the scientific literature when determining the threat of a chemical. A chemical is listed if the “state’s qualified experts” – two independent committees of scientists and health professionals appointed by the Governor – find that the chemical has been clearly shown to cause cancer or birth defects or other reproductive harm. In addition, a chemical can be listed if it has been classified as a carcinogen or as a reproductive toxicant by an organization that has been designated as “authoritative” for purposes of Proposition 65. For carcinogens, the organizations that have been designated as authoritative by OEHHA Science Advisory Board’s Carcinogen Identification Committee as the U.S. Environmental Protection Agency, U.S. Food and Drug Administration, National Institute for Occupational Safety and Health, the National Toxicology Program and the International Agency for Research on Cancer. government.

The OEHHA Science Advisory Board’s Developmental and Reproductive Toxicant Identification Committee have designated the following organizations as “authoritative bodies” for reproductive toxicants: the U.S. Environmental Protection Agency, U.S. Food and Drug Administration, National Institute for Occupational Safety and Health and International Agency for Research on Cancer (limited only to transplacental carcinogenicity). A chemical can also be listed if it is required to be labeled or identified as a carcinogen or as a reproductive toxicant by an agency of the state or federal

WHAT ARE THE RESPONSIBILITIES OF COMPANIES DOING BUSINESS IN CALIFORNIA?

Any company with ten or more employees that operates within the State or sells products in California must comply with the requirements of Proposition 65. Under Proposition 65, businesses are:

1. prohibited from knowingly discharging listed chemicals into sources of drinking water; and
2. required to provide “clear and reasonable” warning before knowingly and intentionally exposing anyone to a listed chemical.

This warning can be given by a variety of means, such as by labeling a consumer product, by posting signs at the workplace, or by publishing notices in a newspaper.

WHAT DOES A WARNING MEAN?

If you are given a warning or if a warning is posted in a workplace, a facility or an area in you community, this means that the business issuing the warning knows or presumes that one or more listed chemicals is or may be present in its product, in its workplace, or in its emissions into the environment. Under the law, a warning must be given unless a business demonstrates that the potential exposure poses no significant risk.

For a chemical that is listed as a carcinogen, the “no significant risk” level is defined as the level which is calculated to result in not more than one excess case of cancer in 100,000 individuals exposed over a 70-year life span. In other words, if you are exposed to the chemical in question at this level every day for 70 years, theoretically it will increase your chances of getting cancer by no more than 1 case in 100,000 individuals so exposed.

For chemicals that are on the list as reproductive toxicants, the “no significant risk” level is defined as the level of exposure which, even if multiplied by 1,000, will not produce birth defects or other reproductive harm. That is, the level of exposure is below the “no observable effect level (NOEL),” divided by 1,000. (The “no observable effect level” is the highest dose level which has not been associated with an observable reproductive harm in humans or test animals.)

When a warning is given by a business, it means one of two things:

1. the business has evaluated the exposure and has concluded that it exceed the no significant risk level; or
2. the business has chosen to provide a warning simply based on its knowledge of or concern about the potential presence of a listed chemical, without attempting to evaluate the exposure. In these cases, exposure could be below the Proposition 65 level of concern, or could even be zero.

Since businesses do not file reports with the State regarding what warnings they have issued and why, the State is not able to provide further information about any particular warning which you may have received. The business issuing the warning is the appropriate party to contact is you seek more specific information about the warning, such as what chemicals are involved, in what manner these chemicals are present, and how exposures to those chemicals may or may not occur.

WHAT HAS BEEN ACCOMPLISHED AS A RESULT OF PROPOSITION 65?

Proposition 65 has provided an effective mechanism for reducing certain exposures that may not have been adequately controlled under existing federal or state laws. For example, a Proposition 65 enforcement action has resulted in the reduction of the amount of lead in ceramic tableware. Air emissions of certain chemicals – including ethylene oxide, hexavalent chromium and chloroform – from facilities in California have been significantly reduced as a result of Proposition 65.

Certain chemicals on the list are no longer used as constituents of some commonly used products – for example, trichloroethylene is no longer used in most correction fluids, toluene has been removed from many nail care products, and foil caps on wine bottles no longer contain lead.

Proposition 65 has resulted in the extensive dissemination of important information regarding the dangers to the unborn child of drinking alcoholic beverages during pregnancy. The warnings about alcoholic beverage consumption during pregnancy are perhaps the most widespread and visible type of warning issued as a result of Proposition 65.

FOR FURTHER INFORMATION

Contact the Office of Environmental Health Hazard Assessment's Proposition 65 Implementation Office at (916) 445-6900.

4.7 FLOOD DISCLOSURE

INFORMATION ABOUT FLOOD HAZARDS: Tenant is informed of the following:

- ☒ The Property is not located in a special flood hazard area or an area of potential flooding.

-OR-

☐ If checked, the Property is located in a special flood hazard area or an area of potential flooding. Property is deemed to be in a special flood hazard area or area of potentially flooding if any of the following scenarios apply:

- A. The owner has actual knowledge of that fact.
 - B. The owner has received written notice from any public agency stating that the Property is located in a special flood hazard area or an area of potential flooding.
 - C. The Property is located in an area in which the owner's mortgage holder requires the owner to carry flood insurance.
 - D. The owner currently carries flood insurance.
2. Resident may obtain information about hazards, including flood hazards, that may affect the Property from the Office of Emergency Services at <http://myhazards.caloes.ca.gov/>.
3. Owner's insurance does not cover the loss of Resident's personal possessions and it is recommended that Resident consider purchasing renter's insurance and flood insurance to insure Resident's possessions from loss due to fire, flood, or other risk of loss.
4. Owner is not required to provide additional information concerning the flood hazards to the property and the information provided pursuant to this section (California Government Code section 8589.45) is deemed to inform Resident.

4.8 MOLD AND VENTILATION

It is our goal to maintain the highest quality living environment for our Tenants. Therefore, know that the Landlord or Landlord's agent has inspected the residence prior to lease and knows of no damp or wet building materials and knows of no mold or mildew contamination. Tenant is hereby notified that mold, however, can grow if the premises are not properly maintained or ventilated. If moisture is allowed to accumulate in the residence, it can cause mildew and mold to grow. It is important that Tenants regularly allow air to circulate in the residence. It is also important that Tenants keep the interior of the unit clean and that they promptly notify the Landlord of any leaks, moisture problems and/or mold growth.

Tenant acknowledges and agrees that Tenant has a responsibility to maintain the property in order to inhibit mold growth and that Tenant's agreement to do so is part of Tenant's material consideration in Landlord's agreement to rent the property to Tenant. Accordingly, Tenant agrees to:

- 1. Keep the residence free of dirt and debris that can harbor mold.
- 2. Immediately report to the Landlord any water intrusion, such as plumbing leaks, drips, or "sweating" pipes.
- 3. Immediately report to Landlord any overflows from bathroom, kitchen, or unit laundry facilities, especially in cases where the overflow may have permeated walls or cabinets. **IMPORTANT: Water can cause serious and extensive property damage. Tenant must contact property manager either in person or on the telephone to report the occurrence of a water leak and/or overflow. Taking appropriate action to speak with property manager -- or the after hours emergency team if outside of normal business hours -- is critical. Sending an email or leaving a voicemail is NOT sufficient notification. Contact property manager at 707-542-4700 for instructions after normal business hours.**
- 4. Report to the Landlord any significant mold growth on surfaces inside the premises.
- 5. Allow the Landlord to enter the unit to inspect and make necessary repairs.
- 6. Use exhaust fans, if any, in the bathroom(s) and kitchen while using those facilities and notify Landlord of any inoperative exhaust

fans.

7. Use all reasonable care to close all windows and other openings in the premises to prevent outdoor water from penetrating into the interior Residence.
8. Clean and dry any visible moisture on windows, walls and other surfaces, including personal property, as soon as reasonably possible. (NOTE: Mold can grow on damp surfaces within 24 to 48 hours.)
9. To notify the Landlord of any problems with the air conditioning or heating systems.
10. To release, indemnify and hold harmless and forever discharge Landlord and Landlord's employees, agents, successors and assigns from any and all claims, liabilities or causes of action of any kind that Tenant, members of Tenant's household or Tenant's guests or invitees may have at any time against Landlord or Landlord's agents resulting from the presence of mold due to Tenant's failure to comply with this Mold and Ventilation. **By initialing this section, Tenant(s) acknowledge(s) having read and understood the foregoing.**

4.9 BED BUGS & PESTS

BED BUGS & PESTS

1. **"Pests"** include (but are not limited to) bed bugs, cockroaches, mites, termites, mice, rats, other vermin and insects. Pest control of ants and non-poisonous spiders is a tenant responsibility.

2. **Landlord Inspection.** Landlord has inspected the Premises and is unaware of any pests in the Premises. At move-in, Tenant will complete and sign a Move-In/Move-Out Statement documenting the Premises' condition. If Tenant fails to report defects in the Move-In/Move-Out Statement, it will be presumed that the Premises have been delivered in good condition and free of pests.

3. **Tenant Responsibilities and Cooperation.** Resident agrees to cooperate with pest control efforts by:

- Keeping the Premises clean and uncluttered;
- Promptly advising Landlord of any pest infestations or pest control needs;
- Refraining from bringing bed bugs and other pests into the Premises, and inspecting all luggage, bedding, clothing, and personal property for bed bugs and other pests before move-in, returning home after traveling and/or bringing new items to the Premises. You will allow us to do the same upon request. If we have a concern about possible infestation, we may (but will not be obligated to) either prohibit you from bringing the item into the Premises or require you to have the item professionally treated at your expense before the item is brought into the Premises.
- Providing Landlord with access to Premises for Landlord's pest control assessments and pest control treatment;
- Cooperating with inspections to facilitate detection and treatment of pests, including providing requested information that is necessary to facilitate the detection and treatment of pests.
- Preparing the Premises for pest control treatment and/or vacating the Premises when necessary in connection with Landlord's pest control efforts. Tenant will comply with all instructions necessary to prepare the Premises for fumigation, testing/inspection or repair. Storage, cleaning, removal, or replacement of contaminated or potentially contaminated personal property will be Tenant's responsibility and at Tenant's expense unless the contamination was the result of Landlord's negligence, intentional wrongdoing or violation of law. Landlord is not responsible for any condition about which Landlord is not aware;
- Upon request by Landlord, promptly providing Landlord with copies of all records, documents, sampling data and other materials relating to the condition of the Premises.

4. **If Tenant is Required to Vacate for Treatment.** If requested by Landlord, Tenant agrees to temporarily vacate the Premises for fumigation, Premises testing/inspection, or repairs. If Tenant is required to vacate the Premises for treatment, Landlord may (but will not be required to) waive rent due for the period of Tenant's vacancy on a per diem basis. Tenant will not be entitled to rent waiver unless the contamination was the result of Landlord's negligence, intentional wrongdoing or violation of law.

5. Bed bugs

A. Information about Bed Bugs.

Bed bug Appearance: Bed bugs have six legs. Adult bed bugs have flat bodies about 1/4 of an inch in length. Their color can vary from red and brown to copper colored. Young bed bugs are very small. Their bodies are about 1/16 of an inch in length. They have almost no color. When a bed bug feeds, its body swells, may lengthen, and becomes bright red, sometimes making it appear to be a different insect. Bed bugs do not fly. They can either crawl or be carried from place to place on objects, people, or animals. Bed bugs can be hard to find and identify because they are tiny and try to stay hidden.

Life Cycle and Reproduction: An average bed bug lives for about 10 months. Female bed bugs lay one to five eggs per day. Bed bugs grow to full adulthood in about 21 days. Bed bugs can survive for months without feeding.

Bed bug Bites: Because bed bugs usually feed at night, most people are bitten in their sleep and do not realize they were bitten. A person's reaction to insect bites is an immune response and so varies from person to person. Sometimes the red welts caused by the bites will not be noticed until many days after a person was bitten, if at all.

Common signs and symptoms of a possible bed bug infestation:

- Small red to reddish brown fecal spots on mattresses, box springs, bed frames, mattresses, linens, upholstery, or walls.
- Molted bed bug skins, white, sticky eggs, or empty eggshells.
- Very heavily infested areas may have a characteristically sweet odor.
- Red, itchy bite marks, especially on the legs, arms, and other body parts exposed while sleeping. However, some people do not show bed bug lesions on their bodies even though bed bugs may have fed on them.

For more information, see the Internet Web sites of the United States Environmental Protection Agency and the National Pest Management Association.

Please report suspected bed bug infestations to us by contacting PURE Property Management at 707-542-4700 or at the office location at 1101 College Ave. #140 Santa Rosa CA 95404

B. Growing Problem. In the past, bed bug infestations were primarily associated with crowded and dilapidated housing. However, bed bug infestations are becoming more common and can be found even in first class hotel and living accommodations. The increase may be the result of increased human travel, movement of infested luggage and items, and changes in the pesticides available to control this pest. Bed bugs are transferred to new locations on people, their clothing, furniture, bedding, and luggage.

C. Inspection Before Bringing Items to Premises. To prevent bed bug infestations, Resident agrees that before move-in and/or bringing new items to the Premises, Resident will inspect all luggage, bedding, clothing, and personal property and to carefully scrutinize and consider the history of any used furniture before bringing it to the Premises. (Tenant should be mindful that furniture found discarded in or around dumpsters or elsewhere may have been discarded because of a bed bug infestation). Resident will allow Landlord to do the same upon request. If Landlord has a concern about possible infestation, Landlord may (but will not be obligated to) either prohibit Resident from bringing the item into the Premises and building or, require Tenant to have the item treated at Resident's expense before the item is brought into the Premises or building.

D. Tenant Notification to Landlord of Infestation. Tenant will immediately notify Landlord of any condition in the Premises indicating a bed bug infestation, such as itchy welts on Resident's skin; bed bugs (whether alive or dead); blood spots (either red or brown) or excrement spots (brown or black) on bedding or the bed; or a sweet odor.

E. Bed Bug Treatment. Bed bug treatment is challenging. It requires Tenant's cooperation, professional treatments over several weeks, and will require treatment and/or discarding of furniture, clothing, and personal property. Because of the difficulty of bed bug extermination, and because of the risk that bed bugs could spread into other units, Tenant agrees that if bed bugs are found, Tenant will immediately contact Landlord, and will not attempt to personally exterminate bed bugs without professional assistance.

6. **Breach of Pest Control Obligations is a Material Breach.** Because pests may pose a risk to the health and safety of other residents, Tenant's breach of this Addendum is a material breach of the Lease.

7. **Tenant Obligation to Indemnify for Failure to Comply.** Tenant agrees to indemnify and hold Landlord harmless from any claims, losses, damages and expenses that Landlord incurs from the negligence of Tenant or Tenant's household members, guests or agents, or their failure to comply with this Addendum.

8. **Tenant Information.** Unless otherwise disclosed by Tenant, Tenant represents and warrants to Landlord that Tenant's current residence, furniture, clothing and personal property are currently free from pests. **If Tenant experienced a pest infestation in Tenant's current residence,** Tenant agrees to provide PURE Property Management with the following information:

1. Describe, in detail, how pest infestation affected residence, furniture, clothing or personal property.
2. Inform PURE Property Management if the infestation has not been professionally treated.
3. If the infestation has been professionally treated by a licensed pest control professional, and Tenant's current residence, furniture, clothing and personal property is free of pests. Tenant agrees to cooperate with Landlord's efforts to confirm this information, and will provide documentation regarding the pest control treatment and will allow Landlord to inspect Tenant's furniture, clothing and personal property (if Landlord chooses to inspect, but Landlord will have no obligation to do so) to confirm the absence of pests.

4.10 CONTRACT TERMINATION AND DISPUTE

This Lease Agreement may only be amended, waived, or terminated by Landlord's representatives in writing. Any oral promises, representations or agreements by our representatives shall not be considered legally binding. No action or omission of our representative will be considered a waiver of any subsequent violation, default, or time or place of performance. Landlord not enforcing or belatedly enforcing written notice requirement, rental due dates, acceleration, liens, or other rights shall not be considered a waiver under any circumstances.

HARASSMENT

Tenant and Tenant's Related Parties may not abuse, harass, or threaten Landlord, or Landlord's Related Parties. Violation of this Agreement provision is a breach of this agreement and grounds for termination of Tenant's tenancy. Tenant and Tenant's Related Parties may not unreasonably interfere with management functions. **Landlord's Related Parties:** Property Manager and the respective officers, managers, employees, affiliates, vendors, agents and representatives of both Landlord and Property Manager. **Resident's Related Parties:** Other Co-Residents, occupants, members of your household, your family, guests, agents, and others under your control.

LEGAL FEES

In any legal action brought by either party to enforce the terms of this agreement or relating to the Premises, whether based in contract or in tort, the prevailing party will be entitled to reasonable attorney's fees and costs incurred, not to exceed \$1000.00, in connection with that action.

WAIVER OF JURY TRIAL

To minimize legal expenses and, to the extent allowed by law, Tenant and Landlord agree that a trial of any lawsuit based on statute common law, and/or related to this Lease Agreement shall be to a judge and not a jury.

FORCE MAJEURE

Landlord, and landlord's agent or other representative, shall be excused from performance of obligations if prevented from fulfilling such obligations by an act of God, strikes, epidemics, war, acts of terrorism, riots, or other occurrence, which is beyond our control.

By initialing below, you acknowledge and agree to the terms in Section 4.

6. Asbestos Addendum

6.1 ASBESTOS

This document is an Addendum and is part of the Lease Agreement dated 03/08/2023 between Elaine Betterton (Owner/Landlord) and Jane Wanjiku, Alex M. IKANDU, Harriet K. Ikandu, Justin M. Ikandu (Tenants) for the premises located at 2187 Hastings Court Santa Rosa, CA 95405

Premises were built prior to 1981

Landlord Check One:

☒ This property may contain asbestos.

-OR-

☐ This property contains asbestos. This hazardous substance is contained in some of the original building materials and in some of the products and materials used to maintain the property. Disturbance or damage to certain interior surfaces may increase the potential exposure to these substances.

1. Tenant or the Tenant's guest(s), employees and contractors shall not take or permit any action which in any way damages or disturbs the premises or any part thereof, including, but not limited to:

- piercing the surface of the ceiling by drilling or any other method
- hanging plants, mobiles or other objects from the ceiling
- attaching any fixtures to the ceiling
- allowing any objects to come in contact with the ceiling
- permitting water or any liquid, other than ordinary steam condensation, to come into contact with the ceiling
- painting, cleaning or undertaking any repairs of any portion of the ceiling
- replacing light fixtures
- undertaking any activity which results in building vibration that may cause damage to the ceiling

2. Tenant shall notify Landlord immediately in writing (1) if there is any damage to or deterioration of the ceiling in the premises or any portion thereof, including, without limitation, flaking, loose, cracking, hanging or dislodged material, water leaks, or stains in the ceiling, or (2) upon the occurrence of any of the events described in paragraph 1 above.

By signing below, you acknowledge and agree to the terms in Section 6.

7. LEAD PAINT ADDENDUM

7.1 LEAD PAINT

The following terms and conditions are hereby incorporated in and made a part of the Lease Agreement between Elaine Betterton and Jane Wanjiku, Alex M. IKANDU, Harriet K. Ikandu, Justin M. Ikandu on property known as 2187 Hastings Court Santa Rosa, CA 95405

LEAD WARNING STATEMENT: Housing built before 1978 may contain lead-based paint. Lead from paint, paint chips and paint dust can pose health hazards if not managed properly. Lead exposure is especially harmful to young children and pregnant women. Before renting pre-1978 housing, landlords and owners must disclose the presence of known lead-based paint and lead-based paint hazards in the dwelling. Resident(s) must also receive a federally approved pamphlet on lead poisoning prevention. It is up to Resident(s) to read the pamphlet. Absent an intentional misrepresentation, the existence of lead-based paint and/or lead-based paint hazards on the property or the premises, is not, by itself, cause to terminate or void a rental.

LANDLORD'S DISCLOSURE

☒ LANDLORD has no knowledge of lead-based paint and/or lead-based paint hazards in the housing other than the following: None

☒ LANDLORD has no reports or records pertaining to lead-based paint and/or lead-based paint hazards in the housing other than the following which, previously or as an attachment to this addendum, have been provided to Resident(s): None

Landlord, as an attachment to this addendum, has provided Tenant with the pamphlet "Protect Your Family From Lead in Your Home".

In addition, Landlord or Landlord's agent has reviewed the above information and certifies that, to the best of their knowledge, the information provided is true and correct.

In addition, Resident(s) acknowledge and certify that all reports and records above indicated and the federally prescribed pamphlet *Protect Your Family from Lead in your Home* have been received.

By signing below, you acknowledge and agree to the terms in Section 7.

8. Resident Benefit Package

8.1 RESIDENT BENEFIT PACKAGE

Resident and Landlord mutually agree that the Resident Benefit Package is defined as follows and variations of inclusions may exist due to property specifications. The total monthly cost of the Resident Benefits Package is all-inclusive, and no discounts will be given if any element(s) of the package are unavailable due to a lack of HVAC or other property-specific limitations.

Resident is required to maintain liability insurance at all times during occupancy. If Resident would like the required insurance included as part of the monthly cost, please choose PLAN A. If Resident would prefer to secure their own insurance, along with the necessary additional insured endorsements, and provides proof of their own insurance, choose PLAN B. Resident's liability insurance must contain a minimum of \$100,000 in Tenant Liability Coverage and a minimum of \$10,000 in Bodily Injury Liability Protection.

Please select Plan A or Plan B from the options listed below:

☒ **Plan A (\$39.00 per month) Includes:**

1. **Build your credit score:** Landlord provides credit reporting to cast positive payment history through a third-party service. Landlord is not responsible for any misrepresentation, erroneous reporting, and/or lack of reporting by the third-party service. Resident understands that any disputes will be handled directly between Resident and the third party service.
2. **Pinata Resident Rewards:** Resident acknowledges that a Resident rewards program is made available to them by Landlord. Rewards are to be accessed online and are activated at Resident's sole discretion through use of a mobile application provided by the rewards provider. Rewards will provide Resident with available rewards as a preferred customer of Landlord.
3. **Tenant Liability Insurance Policy:** (includes)
 - a. \$20,000 Renter Content Coverage (\$250 deductible) under the property management company master policy. Policy coverage is based on replacement cost.
 - b. \$100,000 Tenant Liability Insurance Coverage under Pure PM master policy.
 - c. \$10,000 Renters Bodily Injury Coverage (\$250 deductible).
4. **HVAC Filter Delivery:** Resident is responsible for replacing all A/C and heating system filters at the property on a quarterly basis. The only filters to be used at the property will be provided by Landlord and will be mailed directly to the property approximately every 90 days. Resident shall properly install the filter within two (2) days of receipt. Resident hereby acknowledges that the filters are dated to verify replacement and are subject to inspection by Landlord upon reasonable notice. If at any time Resident cannot properly or timely install a filter Resident shall immediately notify Landlord in writing. Resident's failure to properly and timely replace the filters is a material breach of this agreement and Landlord shall be entitled to exercise all rights and remedies it has against Resident and Resident shall be liable to Landlord for all damages to the property, A/C or heating system.
5. **\$1M ID Protection:** By executing this agreement, you are agreeing to Aura's IdentityGuard Terms of Service and Privacy Policy with respect to the identity theft protection service provided as part of the RBP, which can be found at www.identityguard.com.
6. **Late Fee Forgiveness:** One-time late fee forgiveness.
7. **Resident Portal:** Personalized Online Portal to conveniently submit all maintenance requests, payments and electronic documents by using your computer or smartphone.
8. **Emergency Maintenance Services:** Dedicated after-hours maintenance emergency number where you can call in and speak to a person who will assist with the situation.

☐ **Plan B (\$27.00 per month) Includes:**

1. **Build your credit score:** Landlord provides credit reporting to cast positive payment history through a third-party service. Landlord is not responsible for any misrepresentation, erroneous reporting, and/or lack of reporting by the third-party service. Resident understands that any disputes will be handled directly between Resident and the third-party service.
2. **Pinata Resident Rewards:** Resident acknowledges that a Resident rewards program is made available to them by Landlord. Rewards are to be accessed online and are activated at Resident's sole discretion through use of a mobile application provided by the rewards provider. Rewards will provide Resident with available rewards as a preferred customer of Landlord.
3. **HVAC Filter Delivery:** Resident is responsible for replacing all A/C and heating system filters at the property on a quarterly basis. The

only filters to be used at the property will be provided by Landlord and will be mailed directly to the property approximately every 90 days. Resident shall properly install the filter within two (2) days of receipt. Resident hereby acknowledges that the filters are dated to verify replacement and are subject to inspection by Landlord upon reasonable notice. If at any time Resident cannot properly or timely install a filter Resident shall immediately notify Landlord in writing. Resident's failure to properly and timely replace the filters is a material breach of this agreement and Landlord shall be entitled to exercise all rights and remedies it has against Resident and Resident shall be liable to Landlord for all damages to the property, A/C or heating system.

4. \$1M ID Protection: By executing this agreement, you are agreeing to Aura's IdentityGuard Terms of Service and Privacy Policy with respect to the identity theft protection service provided as part of the RBP, which can be found at www.identityguard.com.

5. Late Fee Forgiveness: One-time late fee forgiveness.

6. Resident Portal: Personalized Online Portal to conveniently submit all maintenance requests, payments and electronic documents by using your computer or smartphone.

7. Emergency Maintenance Services: Dedicated after-hours maintenance emergency number where you can call in and speak to a person who will assist with the situation.

Under Plan B, Resident is responsible to provide a certificate of insurance to the Property Manager upon lease signing and with all renewals. In the event a copy of the insurance policy or certificate of insurance is not provided when requested, Resident will AUTOMATICALLY be enrolled in PLAN A to ensure proper coverage.

By signing below, you acknowledge and agree to the terms in Section 8.

9. Security Deposit Waiver

9.1 SECURITY DEPOSIT WAIVER

Security Deposit Waiver (must check one)

☒ YES	\$95.00 per month.	You waive payment of the security deposit of \$0.00 in lieu of the indicated monthly payment.
☐ NO	\$0.00	You agree to post the security deposit required by the Landlord.

This Lease Addendum is attached to and becomes a part of the Residential Lease Agreement ("Lease Agreement") between Landlord ("Landlord") and Renter ("You"). Both parties are bound by the terms of this Lease Addendum.

Your Lease Agreement also contractually requires that You post a Security Deposit to secure compliance with the terms and conditions of your Lease Agreement. The Security Deposit may be used by Landlord as reimbursement for amounts contractually recoverable from You under your Lease Agreement. In lieu of the Security Deposit, Landlord offers to waive the one-time Security Deposit in exchange for payment of the monthly fee indicated above for the term of the Lease Agreement. This waiver does not waive the requirement that You adhere to the terms and conditions of your Lease Agreement. **In the event the Property Management contract is terminated, the monthly fee referenced herein will cease and the Property Owner may require You to post a Security Deposit.**

I HAVE READ AND UNDERSTAND THIS ADDENDUM.

By signing below, you acknowledge and agree to the terms in Section 9.

Information on Dampness and Mold for Renters in California

Main points:

- Living in damp or moldy buildings increases the chances of respiratory problems like asthma.
- The critical warning signs are visible mold, water damage, damp materials, or mold smell.
- Dampness is needed for mold to grow, so if you control the dampness, you control the mold.
- Dampness or mold indoors may make housing substandard, per the California Health & Safety Code.

Beginning January 1, 2022, residential landlords shall provide this booklet to prospective residential tenants prior to entering the rental or lease agreement, in accordance with the 2001 Toxic Mold Protection Act (HSC #26148). This booklet, which explains the potential health risks and health impacts that may result from exposure to mold, was produced by the California Department of Public Health (CDPH) in 2020, in both English and Spanish versions.

Health Problems from Damp or Moldy Buildings

Living or working in damp or moldy buildings increases the risk of many harmful health problems, including:

- asthma attacks in people who already have asthma
- a new asthma diagnosis
- respiratory infections, such as bronchitis
- breathing symptoms, such as hay fever, sneezing, stuffy nose, sore throat, wheezing, breathing difficulty, or cough
- eczema or skin rash

Mold can affect people differently. How much a person is affected depends on how sensitive they are and on how much they are exposed. Damp or moldy buildings are linked to health problems in people even if they do not have allergies.

Signs of Dampness or Mold

Signs of dampness or mold that may cause health problems include:

- **visible mold** (regardless of color), such as on walls or ceilings, behind furniture or appliances, under carpets, or even hidden in areas not seen in the occupied areas of homes
- **mold odor**, noticed as an earthy, musty, or moldy smell
- **visible water damage**, such as water-stains or discoloration on walls or ceilings, peeling or bubbled paint, warped floors, or rotting wood
- **damp or moist materials**, including condensation on windows or walls

Any one of these signs indicates increased risks to health, and the more that any of them are present, the greater the risk of health problems. Tests that identify the types of mold or the amounts of mold in buildings are not useful in telling us about the health risks. This is *why CDPH does not recommend testing for mold, such as measuring mold spores in the air.*

Causes of Building Dampness that Can Allow Mold to Grow

The dampness that is necessary for indoor mold to grow can come from either inside or outside a building.

Indoor sources include:

- leaking or burst water pipes, for instance under sinks inside walls
- not enough venting to the outside by open windows or exhaust fans in places where water is used or moisture is produced (for example, bathrooms, laundry areas, kitchens, and water heaters)
- condensation (water droplets) on cold surfaces, including windows

Outdoor sources include:

- water coming in through leaky roofs or poorly-sealed windows, or from flooding
- damp, exposed dirt in crawl spaces
- outdoor surfaces that slope and drain water toward a building, including from a downspout

Fixing Dampness and Mold Problems

The California Health & Safety Code (HSC §17920.3) says that when dampness or visible mold (or certain other conditions) in a home is a hazard to the health of occupants, the home is *substandard* and the property owner must fix the conditions. The Code excludes mold that is “minor and found on surfaces that accumulate moisture as part of their properly functioning and intended use.”

CDPH recommends fixing dampness and mold problems as follows:

- identifying and correcting the source of any water that may allow mold to grow
- rapid drying or removal of damp materials
- cleaning or removing mold and moldy materials as rapidly and safely as possible

Note: if a moldy area is simply bleached, cleaned, or painted over—without fixing the source of the dampness—the mold is likely to grow again.

Renters in California

The California Health & Safety Code requires property owners to provide a rental unit that is safe and healthy for the people living in it. Prospective renters should look for obvious conditions that show dampness or mold, and also less obvious signs like water leaks under the kitchen and bathroom sinks or moldy odor in a sealed-up home. Also look for conditions likely to cause future problems, like a bathroom that has no working vent fan or no window that opens, or a clothes dryer without an outside vent.

For renters who suspect there is dampness or mold:

1. Tell the property owner or manager. Early detection and correction of the dampness and mold problems can reduce the risks to your health and prevent the problem from getting worse.
2. If your property owner will not respond to your concerns in a reasonable amount of time, contact your local (city or county) code enforcement agency and ask for a code enforcement officer to inspect for violations. Many dampness or mold problems in rental homes are the responsibility of the property owner and must be addressed by them. However, a code enforcement officer may determine that dampness or mold in a building results from a tenant's actions or inactions – for instance, not using available bathroom ventilation during showers.
3. If the local inspector determines there is a violation, they can require the property owner to correct the problem.

Additional Resources

For general information on dampness and mold and a list of local code enforcement agencies, with a focus on dampness and mold, see www.cdph.ca.gov/iaq/mold. To see an animated video series, Mold in the Home, visit www.cdph.ca.gov/mold.

Property owners must provide a rental unit that is safe and healthy for the people living in it.

Tenants must notify property owners of any dampness or mold problems.

DO NOT USE ALUMINUM FOIL ON RANGE

GENERAL SAFETY INSTRUCTIONS:

ELECTRIC OVENS: DO NOT use aluminum foil to line the oven bottom. Foil can trap heat or melt, resulting in damage to the product and a shock or fire hazard.

ELECTRIC COIL COOKTOPS: DO NOT use aluminum foil to line drip pans. Foil can trap heat or melt, resulting in damage to the product and a shock or fire hazard.

ELECTRIC RADIANT COOKTOPS: DO NOT use aluminum foil on or near a radiant cooktop burner. The heat from the burner will fuse the aluminum foil to the glass surface. Once this happens the foil cannot be removed.

GAS OVENS: NEVER cover any slot, holes or passages in the oven bottom or cover an entire rack with materials such as aluminum foil. Doing so blocks that air flow through the oven and may cause carbon monoxide poisoning. Aluminum foil linings may also trap heat, causing a fire hazard.

GAS COOKTOPS: DO NOT use aluminum foil to cover the grates or line any part of the cooktop. Doing so may result in carbon monoxide poisoning, overheating of the cooktop surfaces, or a potential fire hazard.

USING THE OVEN SECTION:

- DO NOT use aluminum foil to line the oven bottoms. The foil will trap heat below, and upset the performance of the oven.
- Foil can melt and permanently damage the oven bottom. Damage from improper use of aluminum foil is not covered by the product warranty. Foil may be used to catch spills by placing a sheet on a lower rack, several inches below the food. DO NOT use more foil than necessary, and never entirely cover an oven rack with aluminum foil. Keep foil at least 1½" from oven walls to prevent poor heat circulation.

USING THE BAKING OR WARMING DRAWER SECTION:

- DO NOT use aluminum foil to line the lower drawer. The foil will trap heat below, and upset the performance of the oven. Foil can melt and permanently damage the drawer bottom. Damage from improper use of aluminum foil is not covered by the product warranty.

Jam-Buster Service Wrench

What It Does: A quick, effective tool to help free simple jams. Insert the wrench into the center hole in the bottom of the disposer and turn back and forth to free the jam. Works only on InSinkErator manufactured disposers.

This tool can be purchased at any hardware store. It can save you hundreds of dollars. If you call for disposal repair, and the cause of the problem was tenant caused, you will be charged the service call.

IMPORTANT NOTICE - Wipes & Personal Hygiene Products Clog Sewer Lines!

Many household products are labeled and marketed as **DISPOSABLE** and/or **FLUSHABLE**; many baby and adult personal hygiene products, along with household wipes and cleaning towelettes are labeled both disposable and flushable. While these products may be marketed as a convenience item in this way, the truth is that these types of items have the ability to clog and stop up not only the sewer line on your property, but also can cause blockage and service problems in the public sewer system and pump stations.

Unlike toilet paper, these products **DO NOT** break down once they are flushed. They can cause blockages in your on-site sewer, especially older pipelines that may have **greases, roots, or other obstructions already existing**. A repair of the on-site sewer line can leave the home owner or business owner with a **very costly sewer repair**.

On a larger scale, when these products make their way into the public sewer system they collect together, causing very large obstructions and clogs in the main collector lines and get tangled in pump stations requiring repair or replacement of equipment.

What We All Can Do To Help...

The following items should **NEVER** be flushed into the sewer system:

Disinfecting/surface wipes	Mop or "Swiffer" type refills
Baby wipes	Paper towels
Jewelry wipes	Pet care wipes
Cosmetic wipes	First Aid wipes
Disposable diapers or diaper liners	Bio-pads (nursing home, home health care, etc.)
Cotton swabs	Feminine hygiene products
Toilet cleaning pads	ANY Moist type towelettes
 ANY CONSUMER ITEM THAT IS NOT TOILET PAPER!	

Every home and business has a sewer connection to the public sewer system. This connection runs from the home or business to the sewer main where it is connected to the public sewer system. This on-site sewer line is the responsibility of the home or business owner to keep clear so there are no back-ups of wastewater into the home or business. Save yourself and your Sewer Utility from costly repairs and/or replacement bills. **Do not flush the listed items; place them in the trash, not the toilet.**

PROPERTY MANAGEMENT

101 Brookwood Avenue, Suite B, Santa Rosa, CA 95404 · PO Box 253, Santa Rosa, CA 95402-0253 · 707-542-4700 · Fax 707-542-4620

Maintenance Request Form

Please complete this form and return it to us via facsimile (707-542-4620); mail, email (info@bakerrentals.net), or deliver to the office at 101 Brookwood Ave., Ste. B, Santa Rosa.
Emergencies must be reported by telephone. After hours emergencies, may be reported by calling 707-542-4700.
You will receive voice mail instructions on how to report your emergency.

Resident Name: _____

Property Address: _____

Resident Phone: _____ Unit #: _____

Other Phone#: _____

Fax# (if applicable): _____ ☐ Cell ☐ Work ☐ Home

Email Address: _____

Please describe in detail the problem including the specific location in the unit/residence:

Note* If the problem is with an appliance, please include the make and model number. This information is typically found on the appliance, often on the edge of the door or on the back of the unit. If you have a cell phone with a camera, it works well to take a picture of the area containing the information to forward with your request.

Do you have any pets, or other concerns we need to be aware of when entering your unit? ☐ No ☐ Yes
Specifically, what type of concern: _____

May we use our keys to access your unit to make the repairs? ☐ No ☐ Yes
*Please note: If the answer above is "No" then you must understand that you will have to be available to provide the contractor access and that the specific appointment generally requires a two to three hour time window. Any missed or "No Show" appointments made by the tenant will result in any and all fees to be the responsibility of the tenant.

Submission of this request represents your acknowledgement of our written notice to you of our intent to enter your unit to complete the necessary repairs (subject to your access instruction on the form). Depending upon your instructions, we will contact you with a more specific date and time, however, this notice meets our requirement to notify you, in writing, or our intent to enter your unit.

Resident

Refrigerator

Symptom	Possible Causes	Solution
Refrigerator cools poorly or runs constantly	■ The freezer may be overpacked, not allowing the evaporator fan to work properly.	■ Move food in the freezer away from the evaporator fan.
	■ There may be heavy frost accumulation in the freezer.	■ Defrost the freezer more often.
	■ The door may be opened too much.	■ Open the refrigerator door as little as possible.
	■ The temperature setting may not be adjusted correctly.	■ Adjust the temperature setting inside the refrigerator. The ideal temperature setting for the freezer is between 0° and 5°F, and the ideal setting for the refrigerator is between 35° and 40°F. Allow 24 hours for the temperature to equalize.
	■ The door gasket may be bad.	■ Straighten the door gasket by applying a blow dryer to the door gasket to dry it. This should straighten them out.
	■ The coils may be dirty.	■ Clean the coils under the refrigerator with a coil brush.
	■ The light inside the refrigerator is on.	■ Check the door switch.
	■ The weather may be hot and humid. If the refrigerator constantly runs but cools well, there is no problem.	
Refrigerator cycles on and off	■ The door gasket may be bad, and leaking hot air in the refrigerator.	■ Straighten the door gasket by applying a blow dryer to the gasket to dry it. This should straighten them out.
	■ The coils may be dirty.	■ Clean the coils under the front of the refrigerator with a coil brush.
Refrigerator does not run	■ The refrigerator may not be plugged in.	■ Determine whether the refrigerator is plugged in.
	■ The power may be out.	■ Ensure that there is power in the home; determine whether the circuit breakers are tripped or if the fuses have blown. Reset the circuit breakers if needed. ■ To discern whether it is the refrigerator or electricity within the home that needs service, plug a lamp into the same outlet as the refrigerator is plugged into. If the lamp turns on, the refrigerator needs servicing. If the lamp does not turn on once it is plugged in, the electricity needs servicing.
Refrigerator is making a lot of noise	■ The back of the refrigerator may be dirty.	■ Clean the back of the refrigerator with a handheld vacuum.
	■ The refrigerator may not be sitting level.	■ Ensure the refrigerator is sitting level.
	■ The drain pan may be touching the sides of the refrigerator.	■ Move the drain pan so it does not touch the sides of the refrigerator.
Refrigerator leaks underneath	■ There may not be a drain pan under the refrigerator, or if there is a drain pan, it may be broken.	■ Replace the drain pan.
Refrigerator smells unusual	■ The drain pan is dirty.	■ Clean and disinfect the drain pan.
	■ The drains inside the refrigerator may be clogged.	■ Open and clean the drains inside the refrigerator. To do this, simply take the storage drawers out of the refrigerator. You will find the drains behind the drawers. Clean the drains with soap and hot water. Once you are done, return the storage drawers to their original compartments.

Dishwasher

Symptom	Possible Causes	Solution
Dishwasher will not turn on	- The door may not be locked or latched properly. - The dishwasher may not be plugged in or the switch turned on, depending on your model. - The timer is not set to the ON position. - The RINSE AND HOLD setting may be in the ON position. This setting must be in the OFF position for the dishwasher to operate. - There may be no power.	- Ensure that the door clicks when closed, and closes all the way. Press the RESET button until you hear two clicks. - Ensure that the dishwasher is plugged in and that the switch is turned ON. - Ensure the timer is set to the ON position. - Ensure that the RINSE AND HOLD setting is in the OFF position. - Check the circuit breakers, fuses and plugs. Ensure that the circuit breakers haven't tripped, or the fuses blown. Reset the circuit breakers if needed.
Dishes are not being cleaned	- The water isn't hot enough. The water needs to be at least 130° degrees to clean the dishes. The soap will not dissolve if the water is not hot enough. FUTURE PREVENTION: - Thoroughly scrape plates before loading them into the dishwasher. - Load the dishes carefully. Don't block the spray arms or soap dispenser. Leave space between dishes for proper circulation. - Ensure the dishwasher sits level and does not wobble.	- First run hot water at the kitchen sink to determine if you have running hot water. Depending where your water heater is located in relation to your dishwasher, it may take longer than normal to receive hot water. If you receive hot water from the kitchen sink, turn on the kitchen sink faucet until hot water comes through before running the dishwasher. Then, run the dishwasher. - If you have running hot water but the dishwasher is still not cleaning the dishes, slightly turn up the temperature on the water heater. - Use a dry powder detergent.
Clogged spray arm	- There is debris in the disposal or drainline. - Dishes are obstructing the spray arm.	- Rinse the dishes before putting them into the dishwasher. - Clean or replace the spray arm.
Dishes do not dry	- The HEATED DRY setting may not be set, or if it is set, it may not be hot enough. - The ENERGY SAVER setting may be set to the ON position. (ENERGY SAVER setting will turn off the HEATED DRY setting.)	- Set the HEATED DRY setting to the ON position. - Turn the ENERGY SAVER setting to the OFF position.
Water in dishwasher will not stop running	The float valve may be stuck.	Check the float valve at the bottom of the dishwasher and determine if it moves freely. Remove any obstructions.
Water does not drain from dishwasher	- Air gap on top of sink may be clogged. - The drain/filter may be clogged. - The drain hose may be kinked.	- Run garbage disposal to unclog air gap. - Inside the dishwasher at the bottom of the unit there is float or pressure switch that looks like an upside down cup. It should move up and down freely. Remove any large food particles, glass, plastic, etc. that have become lodged under this switch so the unit can function properly. - Remove any debris from the drain/filter. - Straighten out the drain hose.
Leak at the bottom or front of dishwasher NOTE: If these solutions do not solve the problem, the leakage could be a result of the unit not draining properly.	- If soap suds appear where the leak is originating from, the wrong kind of soap is being used. - Something may be blocking the front, right corner of the dishwasher. This is where the dishwasher drains. - There may be debris in the door gasket.	- Remove any remaining liquid soap from the system by placing a cup of vinegar in dishwasher and running it through a cycle. - Use dry dishwashing soap. - Do not block the front, right corner of the dishwasher with dishes, glasses, pots and pans, etc. - Remove any debris in the door gasket.

Trash Compactor

Symptom	Possible Causes	Solution
Trash compactor smells unusual	■ The deodorant may be empty.	■ Replace the deodorant. Refer to your Owner's Manual for instructions.
	■ The aerosol nozzle on the deodorant may be clogged.	■ Ream the aerosol nozzle out with a thin wire.
Trash compactor is noisy or squeaks	■ The trash compactor may need lubrication.	■ Use White Lithium Grease or WD-40 on the shaft/drive screws.
	■ Some parts may be loose.	■ Check and tighten every bolt and screw. NOTE: Pulling the trash compactor out of its compartment may be required. If it needs to be pulled out, call for service.
Trash compactor will not sit level	■ The leveling legs may not be balanced.	■ Refer to your Owner's Manual.
	■ The unit may not be securely attached under the counter.	■ Tighten the screws under the counter to secure the trash compactor
Trash compactor will not turn on	■ The trash compactor may not be plugged in.	■ Ensure the unit is plugged in by checking the power cord under the sink. If the trash compactor makes any noise, it has power.
	■ Safety switch may not be turned on. Depending on model, trash compactor will not operate if there is no safety/switch key.	■ If the trash compactor has a safety switch/key, ensure it is in the lock position. Turn the safety to the ON position.
	■ The door may be open.	■ Ensure the door is closed.
	■ The power may not be on.	■ Check the circuit breakers, fuses and plugs. Ensure that the circuit breakers are not tripped, or the fuses blown. Reset the circuit breakers if needed.
	■ Trash compactor may be jammed, due to obstructions on the track or behind door.	■ Clear any debris/obstructions behind the door and on the tracks.
	■ The motor may be overloaded.	■ Unplug the trash compactor and allow the motor to cool for 10 minutes. After 10 minutes, plug the trash compactor back in and try again.

Water Heater

Leak at the temperature and pressure valve	■ The water is too hot.	■ Turn down the temperature on the thermostat.
Water heater unit will not heat	■ Electric Water Heater: The power is off.	■ Check the circuit breakers. Ensure that the circuit breakers are not tripped. Reset the circuit breakers if needed.
	■ Gas Water Heater: The pilot light is not lit.	■ Determine whether the pilot light is lit. If the pilot light is lit, turn the gas valve to the ON position. If the pilot light is not lit, call the Gas company to light the pilot light.
Water heater leaks at the flush/drain valve	■ The flush/drain valve connection may be loose.	■ Tighten the flush/drain valve connection. ■ Install a PVC cap over the drain opening to avoid leakage.
Water heater leaks at the top	■ The water heater supply line connections may be loose.	■ Tighten the water heater supply line connections.
Water heater makes a rumbling/clanking noise	■ There may be sediment buildup in the water heater.	■ The water heater should be drained to flush out any sediment buildup.
Water heater makes a sizzling noise	■ Condensation is dripping on the burner.	■ This is normal; there is no solution.
Water is not hot enough	■ The thermostat's setting is not high enough.	■ Slightly turn up the thermostat.
		■ If the temperature is set on the highest setting, drain the water heater.

Cooktop/ Range/Stove

Symptom	Possible Causes	Solution
Burners will not turn on (for gas cooktops only)	■ The gas valve at the supply line may not be open.	■ Ensure the gas valve is open at the supply line valve.
	■ The pilot light may be out.	■ Determine if the pilot light is on. If the pilot light is not on, call the Gas company to come out and light the pilot light for you; this service is free of charge.
Burners will not turn on (for electric and Jenn-Air cooktops only)	■ The cartridges may not be plugged in.	■ Ensure that all the cartridges are fully plugged in.
	■ The power may be out.	■ Check the circuit breakers, fuses and plugs. Ensure that the circuit breakers are not tripped, or the fuses blown. Reset the circuit breakers if needed.
Electric burner will not heat GENERAL TIPS: Replace burners instead of swapping them which may burn out a good connection.	■ The oven range may not be plugged in.	■ Ensure that the unit is plugged in.
	■ The cartridge may be loose or dislodged.	■ Push in the burner to tighten the contact.
Electric burner is heating unevenly	■ There may be no power.	■ Push in the RESET button, if applicable.
		■ Check the circuit breakers, fuses and plugs. Ensure that the circuit breakers are not tripped, or the fuses blown. Reset the circuit breakers if needed.
Electric cooktop/range/stove is non-operational	■ The pan/element may be too large for the burner.	■ Push in the surface element for good contact.
	■ There may be buildup on the burner surface.	■ Clean the burner surface and the buildup with vinegar.
	■ There may be excessive oil in the drip pan.	■ Remove the foil from the drip pan and secure the contact.
Electric cooktop element smokes		■ Check the circuit breaker. A dedicated circuit will be needed.
		■ If nothing else works, reset the circuit breakers and check the plug.
Gas cooktop/range/stove will not light	■ The setting may be in the TIME BAKE/SELF-CLEANING mode.	■ Take the setting off the TIME BAKE/SELF-CLEANING mode.
	■ There is no power.	■ Determine whether the clock is working. If the clock is working, there is power.
		■ Check the circuit breakers, fuses and plugs. Ensure that the circuit breakers are not tripped, or the fuses blown. Reset the circuit breakers if needed.
Gas cooktop/range/stove will not light	■ There may be grease buildup on the element.	■ Clean the grease build up with vinegar.
	■ The oven may be dirty. The oven will smoke if it is dirty.	■ Remove the foil from the drip pan. Clean or replace the drip pan.
		■ Clean the oven twice. NOTE: It's normal for the back burner to smoke.
Gas cooktop/range/stove will not light	■ The pilot light may be out.	■ Call the Gas company to come out and light the pilot light. This service is free of charge.
	■ There may have been a spill.	■ If there is a spill, let it dry for 24 hours and call the Gas company to come out and light the pilot light. This service is free of charge.
	■ The gas supply valve may be shut off.	■ Ensure that the gas supply valve is on.
Gas cooktop/range/stove is not lighting completely	■ The burner orifice is dirty.	■ Clean the orifice on the burner with a paperclip.

Garbage Disposal

NOTE: Make sure you unplug the garbage disposal before performing any work.

Symptom	Possible Causes	Solution
Garbage disposal drains slowly	There may be a buildup of debris or grease.	- Flush the garbage disposal with hot water. Then, run ice through the unit. - Pour 1 cup of vinegar, 1 cup of baking soda and 1 cup of salt separately down the drain, followed by a pot of boiling water. Repeat 1-3 times to clear the line effectively. - Use a plunger over the drain opening in the sink. If there are two sinks, ensure that the second sink is plugged.
Garbage disposal hums but unable to chop food	There may be obstructions in the garbage disposal.	- Unplug the garbage disposal and remove any obstructions through the kitchen sink. Plug the unit back in and press the RESET button. - Check the RESET button. - Unplug the garbage disposal. Insert an allen wrench underneath the garbage disposal to un-jam the unit. Move the allen wrench counter-clockwise to free up any obstructions. Plug the unit back in and press the RESET button.
Garbage disposal is noisy	There may be obstructions in the garbage disposal.	Unplug the unit. Clear the garbage disposal of any debris or foreign objects through the kitchen sink. Plug the unit back in and press the RESET button.
Garbage disposal smells of sewage	This is normal buildup.	Fill an ice cube tray 1/2 full of vinegar and 1/2 full of water. Once the cubes are frozen, run them through the unit 2-3 times a week for about a month. The ice will also help keep the blades sharp!
No power to the garbage disposal	There may be no power.	- Unplug the garbage disposal and plug it back in. Press the RESET button. - Ensure that the switch on the wall is turned on. Some units require the wall switch to be turned on in order to operate. - Check the circuit breakers, fuses and plugs. Ensure that the circuit breakers are not tripped, or the fuses blown. Reset the circuit breakers if needed.

Dryer

GENERAL TIPS:

- Always clean the lint filter after each drying cycle.
- If the lint filter is torn, replace it immediately.
- Do not overload the dryer with clothes.

Dryer makes a banging noise when in use	Shoes and belts may be in the dryer.	Remove any shoes and/or belts.
Drum that turns the clothes does not dry the clothes	The lint filter may be dirty.	Remove and clean the lint filter after each use.
	The vent on the side of the house may be blocked.	Clear any debris blocking the vent on the side of the house. Ensure that the flapper is open and moves.
	There may be too many clothes in the dryer.	Reduce the load.
Dryer will not run	The door may not be shut.	Ensure that the dryer door is shut tightly.
	The power may be out.	Check the circuit breakers, fuses and plugs. Ensure that the circuit breakers are not tripped, or the fuses blown. Reset the circuit breakers if needed.

Washing Machine

Symptom	Possible Causes	Solution
Soap does not dissolve	■ The washer may be set to the wrong temperature setting.	■ Use hot water to wash the clothes. If you are washing clothes in cold water, use soap designed for cold water temperature.
	■ The wrong detergent may be the culprit.	■ Use detergent made for the water temperature you are washing clothes in.
Washer does not drain	■ The washer lid may be open. Most washers won't operate if the lid is open.	■ Ensure that the washer lid is closed.
	■ The drain hose may be kinked.	■ If kinked, straighten the drain hose out.
	■ The position of the drain hose may be too high.	■ The drain hose should not be more than 4 feet above the floor. Lower the hose if it is higher than 4 feet.
	■ The drain hose may be clogged.	■ Clean the drain hose(es) out. The hose(es) can be removed by unscrewing them from the back of the washer.
Washer fills with water but the motor doesn't run	■ The washer lid may be open. Most washers will not operate if the lid is open.	■ Ensure that the washer lid is closed.
	■ There may be too many items in the washer.	■ Lighten the load and wait 15 minutes for the washer motor to reset.
Washer is non-operational	■ The washer may not be plugged in.	■ Ensure the washer is plugged in.
	■ The power may be out.	■ Check the circuit breakers and fuses. Ensure that the circuit breakers have not tripped, or the fuses blown. Reset the circuit breakers if needed.
Washer is not cleaning clothes	■ The wash cycle may be on the wrong setting.	■ Make sure the cycle is set to NORMAL, not GENTLE.
Washer leaks	■ The hose bib connections may be loose.	■ Tighten the hose bib connections.
	■ There may be a hole in the water supply hose(s).	■ If needed, replace the water supply hose(s).
Washer vibrates and/or makes a banging noise	■ The clothes are not distributed evenly in the washer.	■ Reduce or level the load and re-distribute the load evenly.
Washer will not fill up with water	■ The lid may be open. Most washers will not operate if the lid is open.	■ Close the lid.
	■ The washer may not be plugged in.	■ Ensure that the washer is plugged in.
	■ The hose bibs may not be turned on.	■ Ensure that the water supply valves are turned on.
	■ The inlet hose filters may be clogged.	■ Check the inlet hose filters and clean them if necessary. To access the filters, unscrew the drain hoses at the back of the washer. The filters should be visible once the hoses are removed.
	■ There may be a kink in one or more hoses.	■ If there is a kink in one or more hoses, straighten the hose(s) out.
	■ The timer may not be set.	■ Turn the timer slightly or press the buttons in firmly.
	■ The power may be out.	■ Check the circuit breakers and fuses. Ensure that the circuit breakers have not tripped, or the fuses blown. Reset the circuit breakers if needed.
Water is not hot enough	■ The thermostat's setting is not high enough.	■ Slightly turn up the thermostat.
		■ If the temperature is set on the highest setting, drain the water heater.

Forced Air Conditioning

Symptom	Possible Causes	Solution
Air conditioner is non-operational	There is no power to the unit.	- Check the circuit breakers, fuses and plugs. Ensure that the circuit breakers are not tripped, or the fuses blown. Reset the circuit breakers if needed. - Ensure the Safety Switch at the Unit (SSU) near furnace is set to ON position.
Air conditioner is smoking	There may be debris stuck in the unit.	- Ensure that the unit is free of debris, especially leaves. - Turn off circuit breakers, disconnect fuses.
Cooling is insufficient throughout entire home GENERAL TIPS: - Close the blinds to avoid direct sunlight from entering the house. - Ensure that the chimney damper is closed. - Remove any furniture that is blocking the vents and close the drapes. - Use a fan to circulate the air. - Limit cooking, baking and using the SELF-CLEANING oven setting.	- The condenser unit may not be turned on. - There may be obstructions/debris in the ductwork blocking the flow of air, or the condenser fins or condenser coil may be clogged not allowing adequate air flow. - The thermostat may be set incorrectly. - The dampers may be closed. - The filter may be dirty. - The outdoor temperature may be too cool. - The power may be out.	- Ensure the condenser unit is turned on. - Clear the ducts of any debris or obstructions for proper air flow. - Remove any debris or obstructions from the unit. - Ensure that the thermostat is set to the A/C setting, COOL. - Check that the dampers are open. - Change the filter. - The outside temperature must be over 70° in order for the air conditioner to work to capacity. Set the thermostat to cool first thing in the morning to maintain the temperature throughout the day. - Check the circuit breakers, fuses and plugs. Ensure that the circuit breakers are not tripped, or the fuses blown. Reset the circuit breakers if needed.
Fan runs but no cool air	- The thermostat may be set incorrectly. - The batteries in the thermostat may need replacing. - The power may be out. - The condenser fins may be dirty and need cleaning. There may be obstructions at the condenser coil not allowing for adequate air flow. - The filters may be bad.	- Set the thermostat to a cooler setting. - Check the batteries in the thermostat and replace them if needed. - Check circuit breakers, fuses and plugs. Ensure that circuit breakers are not tripped, or fuses blown. Reset the circuit breakers if needed. Check the RESET button, if applicable. This is located next to the piping on the outside of the condenser unit. - Gently clean the condenser fins and remove any obstructions from the fins and unit. - Replace the filters to increase the air flow.
No cool air in one or more rooms GENERAL TIPS: - Use a fan to circulate the air in room(s). - Close the drapes in the room(s) to prevent sunlight from entering the room(s).	- The registers may be closed. - Furniture may be blocking the registers. - The thermostat may need adjusting. - The filters may be dirty. - The duct may be disconnected or the damper may be closed.	- Open the register(s) to let air flow in. - Move any furniture that is blocking the register(s), or is near the register(s). - Turn the temperature on the thermostat down a few degrees. - Change the filters in the fan or return air - Clear any debris from outside of the air conditioner unit. - Check the ducts and damper.
Water drips from outside of condenser unit	- The weather may be humid, which would cause the unit to drip. - There may be debris on the outside of the unit. - The furnace filter may be dirty and need to be cleaned.	- Clean out the condensation drain line (furnace or air handler drain). - Clean the vents on the furnace filter. - Clear debris on the outside of the unit. - Clean or replace the filter.

Forced Air Heat

Symptom	Possible Causes	Solution
Heater will not turn on	■ The blower door may not be aligned or closed properly.	■ Most furnaces installed in the last 15 years have a switch located on the inside, front panel called the blower door switch. Align the panel correctly and make sure it is completely closed to activate the switch.
	■ The temperature may not be set correctly.	■ Ensure the thermostat is set on AUTOMATIC.
	■ The power may be out.	■ Check the circuit breakers, fuses and plugs. Ensure that the circuit breakers are not tripped, the pilot light out, or the fuses blown. If the pilot light is out, call the Gas company to come out and light the pilot light for you; it is free of charge. Reset the circuit breakers if needed.
The unit clicks, but produces no heat	■ The thermostat may be off.	■ Ensure the thermostat is on.
	■ The blower door may be open.	■ Make sure blower door is shut properly.
	■ The pilot light may not be lit.	■ Determine if the pilot light is lit. If it is not lit, call your local Gas company to have them light the pilot free of charge.
	■ The gas valve may be in the OFF position.	■ Ensure the gas at the gas supply line is in the ON position.
	■ The Zone Control dampers may be shut.	■ Open all zone controls, check dampers.
	■ There may be no power.	■ Check circuit breakers, fuses and plugs. Ensure that circuit breakers are not tripped, or fuses blown. Reset breakers if needed.
	■ The safety switch at the unit (SSU) near the furnace may be in the OFF position; switch will click off during a power surge.	■ Ensure the SSU near the furnace is set to the ON position.
	■ The filters may be dirty.	■ Change the filters if they are dirty.
Furnace cycles on and off frequently	■ The furnace filter may be clogged. The furnace filter is an important component for the proper operation of a furnace. If the filter gets clogged, it will not allow the furnace to circulate properly, which can result in these symptoms. The blower door switch will automatically turn the unit off when the door to the filter is opened.	■ Replace the furnace filter. ■ Make sure nothing is closer than 18 inches from all output vents and intake grilles. To ensure adequate airflow nothing should be blocking them.
Fan will not shut off	■ The thermostat may be set incorrectly.	■ Reset the thermostat from FAN to AUTO.
	■ The filters may be dirty and need to be changed.	■ Replace the filters.
Heating is insufficient throughout entire home	■ The registers may be closed.	■ Ensure all the registers are open. Leave the register vents 1/3 open for the part of the house receiving the strongest heat flow. For the weaker part of the house not receiving enough heat, open the registers 3/4.
GENERAL TIP: ■ Never close the vents all the way or leave them completely closed.	■ The registers may be dirty.	■ Clean any dirty registers with a vacuum.
	■ The dampers may be closed.	■ Check that the dampers are open.
	■ The filter may be dirty.	■ Change the filter.
Thermostat switches on and off automatically	■ The thermostat may need to be turned up.	■ Check the thermostat setting. If the thermostat is programmable, reset the thermostat. The instructions for doing this are usually located inside the cover of the thermostat.
	■ The batteries may need replacing.	■ Check the batteries in the thermostat and replace them if needed. If the thermostat is digital and there is no reading, replace the batteries.
	■ The circuit breakers may be tripped.	■ Check to see if the circuit breakers are tripped. Reset the circuit breakers if needed.

Glossary of Terms

Air Gap: In plumbing, the distance between the outlet of a faucet and the overflow level of the fixture (i.e. dishwasher air gap).

Allen Wrench: A tool consisting of an L-shaped bar with a hexagonal head, used to turn screws with hexagonal sockets.

Blower Door Switch: Prevents the furnace from turning on when changing the filter.

Burner: A device on a stovetop that produces heat. It is also referred to as the heating element.

Circuit: A continuous path for electrical current. In a household electrical system, a branch circuit begins at the service panel, runs to various switches, outlets and fixtures and returns to the service panel.

Circuit Breaker: A switch-like device in an electrical circuit that is designed to shut down the circuit in the event of an electrical overload or short circuit. Circuit breakers are normally installed in main electrical panels or subpanels.

Coils: The zigzagging tubes of the condenser for a central A/C unit or refrigerator.

Condensate Drain Pan: A pan-shaped panel used to collect condensate from the evaporator during a defrost cycle. It is usually located above a condenser coil or atop the compressor. May also be called drain pan.

Condenser: Part of an air conditioning system that pressurizes refrigerant to cool it by changing it from vapor to liquid. On a refrigerator, the condenser is the coil on the outside of the unit; an air conditioner's condenser is usually outside the house.

Condenser Coils (AC): Compressed refrigerant is forced through coils, releasing heat to the outside.

Condenser Fan (Central AC): Pulls air through condenser coils to dissipate heat.

Condenser Fan Motor (Central AC): Suspended in a bracket above the compressor.

Condensing Unit: The outdoor segment of a cooling system. It houses the condenser coils, compressor, fan and various system controls.

Damper: 1. Found in ductwork, this movable plate opens and closes to control airflow. Dampers are used effectively in zoning to regulate airflow to certain rooms. 2. A movable plate in a fireplace that allows smoke and fumes to travel up the chimney's flue.

Debris: The remains of something broken down or destroyed. An accumulation of fragments of rock.

Drain: Pipe that carries waste water in a building drainage system.

Drain Pan: A pan-shaped panel used to collect condensate from the evaporator during a defrost cycle. It is usually located above a condenser coil or atop the compressor. May also be called condensate pan.

Drain Valve: A valve used to drain a water storage tank in order to perform maintenance or replacement.

Drip Pan: A pan-shaped panel used to collect drips or spillage from a stove element.

Ductwork: A system of large tubes, pipes or channels (ducts) designed to deliver air to and from a furnace or other air-handling unit.

Element: A part of an electric heater, stove or other appliance that heats up when an electric current is passed through it.

Evaporator Coil: Cools and dehumidifies the air by converting liquid refrigerant into a gas, which absorbs the heat from the air. The warmed refrigerant is then carried through a tube to the condenser coil.

Evaporator Fan: Blows air through the evaporative coils of a refrigerator.

Filter: A device to separate solids from air or liquids, such as a filter that removes dust from the air or impurities from water.

Flapper: Also known as flush ball, the flapper is the moving part of the flush valve that seals the water into the tank or allows water to exit the tank for the flush cycle. This is the predominant replacement part used on conventional toilets.

Float Valve: Controlling the opening and closing of a valve by using a float on a lever. When the float that is rising with the water in the tank reaches a certain level, the valve shuts off the incoming water. This mechanism is used in the dishwasher.

Furnace: Houses burner or element that heats air, blower that circulates air and possibly evaporator coils that cool air.

Fuse: Protective device, made of a metal strip, wire or ribbon that guards against overcurrent in an electrical system. The device melts if too much current is generated and breaks the circuit.

Gas Valve: A small faucet-like device that controls the flow of gas to an appliance such as a gas water heater, dryer, or oven. When the handle is turned in line with the gas pipe, the valve is open; when it is perpendicular to the pipe, it's closed.

Gasket: Flat device, usually made of fiber or rubber, used to provide a watertight seal between metal parts of joints.

GFI, GFCI (Ground Fault Circuit Interrupter): A device that detects leakage of electrical current to the ground and prevents accidental shock.

Heating Element: The heating element in the dishwasher is used for drying the load after the final rinse and to keep the wash water hot.

Hose Bib: A water faucet protruding from a building at about sill height, which is usually threaded to accept a hose connection.

Lint Filter: A mechanism that catches released fabric particles before they get recirculated through the blower and back into the dryer drum.

Orifice: The opening in a cap, spud or other device whereby the flow of gas is limited and/or controlled and through which the gas is discharged to either a pilot burner or main burner.

Oven Cavity: The inside of the oven where food is baked, roasted, broiled and otherwise cooked.

Pilot Light: A small, continually burning gas flame inside a gas-fired water heater, dryer, range or similar appliance. This flame ignites the appliance's gas burner.

Refrigerant Lines (Central AC): Small-diameter copper tubing; runs from condenser to evaporator. Split systems have one line for liquid refrigerant and one for refrigerant vapor. The liquid line carries the cooled refrigerant from the condenser to the house, and the insulated suction line returns coolant to the compressor.

Register: Supplies warm air to a room. A grill covering the opening of a duct in a heating or cooling system. Some registers can be opened or closed to regulate the flow of air.

Safety Switch: In an interior electric wiring system, a switch enclosed within a metal box that has a handle protruding from the box to allow switching to be accomplished from outside the box.

Short Circuit: When an exposed hot wire touches a neutral wire or a grounded metal box, the circuit will heat up suddenly. The fuse or breaker will shut off the power immediately.

Spray Arm: A hollow propeller like mechanism on the bottom and/or suspended from the top of the tub of a dishwasher. As it spins, water shoots through holes designed to increase the pressure of the water to remove food soil from dishes and silverware.

Thermostat: A control that automatically turns on a heater, furnace or air conditioner when room temperature reaches a set level.

Valve: Device that controls the flow of liquid or gas through or from a pipe.

Vent: Pipe that provides the flow of air into and gases out of a DWV (Drain, Waste, and Vent) system and prevents siphoning of water from traps.

WD-40: A light lubricant that cleans/degreases, penetrates to loosen up stuck parts and prevents corrosion.

Zone Control, Zoning: A system in which living areas or groups of rooms are divided into separate spaces and each space's heating/air conditioning is controlled independently.

EARLY CONTRACT RELEASE AGREEMENT

Subject to execution of this agreement by both parties, Tenant may be released from a fixed-term lease under the following terms and conditions:

1. **ACTUAL MOVE-OUT NOTICE REQUIRED:** At any point subsequent to execution of this agreement by both parties, Tenant is permitted to deliver to Lessor a fully executed "Tenant Notice to Vacate Premises." Tenant obligation for delivery of premises will be established by that document. Execution of this "Early Contract Release Agreement" does not commit Tenant to vacating premises, but execution of this document is required in order for Tenant to receive permission to vacate prior to lease-end.
2. **RENT PAYMENT THROUGH REMAINDER OF ACTUAL TENANCY:** Tenant must pay, AT THE TIME NOTICE IS DELIVERED, any pro-rated rent that may be for entire period up to and including noticed move-out date, as established on any "Notice to Vacate" subsequently delivered to Lessor by Tenant.
3. **PAYMENT BY TENANT TO NEGOTIATE RELINQUISHMENT PRIOR TO END OF TERM:** In addition to any pro-rated rent due, tenant will be required to pay, AT THE TIME NOTICE TO VACATE IS DELIVERED, an amount equal to either 25% of rent for remaining term of lease, or two full months' rent, whichever is more (see #4 below for exception).
4. **ACTUAL OR VIRTUAL INSPECTION OF PREMISES UPON RECEIPT OF SUBSEQUENT MOVE-OUT NOTICE:** As a condition of Lessor's acceptance of this agreement, Lessor reserves the right to require an in-person or virtual analysis of property upon receipt of subsequent "Notice to Vacate". Unacceptable housekeeping or usage conditions, as documented by Lessor and at the sole discretion of Lessor, may require payment from Tenant of THREE times rent or ONE HALF remainder of lease, whichever is more, rather than standard payment referenced by #3 above.
5. **SHOWING AND MARKETING OF PROPERTY:** Lessor is permitted to, but is not obligated to, begin marketing the property for re-rental prior to tenant vacancy.
6. **SECURITY DEPOSIT ACCOUNTING AND REFUND:** Time calculations for return of security deposit will commence as of date of tenant relinquishment of premises. Security deposit accounting, and any refunds due tenant, will be delivered to tenant within 21 days of relinquishment of property.
7. **COST TO TENANT:** tenant's obligation for remainder of lease, any utilities or services tenant might otherwise be liable for, and any costs or commissions to re-rent property, will not exceed terms of this agreement and/or any increase established at time of inspection (see #3 and #4 above).
8. **SIGNATURES:** All tenants of record and residents age 18+ must sign below, acknowledging acceptance of terms so noted. No "holding over" will be permitted by any parties to original rental contract or any revisions thereto.
9. **AGENCY: Execution of this agreement does not establish an agency relationship between tenant and lessor/lessor's agent. The implementation of this process is intended solely as an accommodation to tenant, and a process by which to effect lessor's duty to mitigate damages.**

EXCEPTION: The Servicemember Civil Relief Act, (50 U.S.C. App Section 535) provides protection to active military under the following circumstances: if, after signing a lease, you have received orders to report for active service, if you received a permanent change of station, or if you received orders to deploy with your unit for a period of not less than 90 days. Under any of these listed circumstances, you may statutorily be released from a fixed-term lease. You will be required to provide supporting documentation for the claim of assignment made, and must provide a written termination notice of not less than 30 days beyond the date your next rental payment is due and payable.

How To Care For Your New Surface

Please do not use scouring pads, abrasive cleaners such as Ajax or Comet, and do not cut or chop on the surface. Do not use cleaners that are intended to be sprayed on and left on the surface such as Clean Shower. The resurfaced fixture is not to be used for water storage. If you elect to use a bathmat, it must be suction cup free and taken out after each use to allow proper drying. Using a bathmat incorrectly or using a bathmat with suction cups will void your warranty.

Note: Use of liquid soaps and shower gels will reduce soap scum build-up.

***Routine Cleaning:**

Use liquid, non abrasive cleaners such as Fantastic, Formula 409, Soft Scrub, Scrubbing Bubbles, Lysol, Dow's Tub and Tile Cleaner, or most other cleaners that do not contain abrasives, bleach or chlorine. Always rinse thoroughly after cleaning and wipe surface dry.

For best results, spray the surface with a liquid cleaner and let it sit for 3-5 minutes before cleaning with a damp cloth or non-abrasive sponge,

***Stubborn Stains and Textured Floors:**

Soft gels, such as Soft Scrub, or other cook top cleaners may be used with plastic scrub pads suitable for Teflon surfaces. On bathroom surfaces, foaming cleaners may be allowed to sit on the surface for a few minutes before wiping off or rinsed well.

PURE PROPERTY MANAGEMENT - STATEMENT OF CONDITION

UPON COMPLETION, RETURN TO OWNER or MGMT CO. (as indicated herein and on contract)

PROPERTY ADDRESS _____ **MOVE-IN DATE** _____

TENANT(S) NAME _____ **CONTACT PH #** _____

This form is provided for your protection. Please complete and return this form to lessor within 14 days of move-in. Be as specific and detailed as appropriate to protect your interests. At the time of move-out, the property condition will be compared to condition at time of contract inception. Documentation of condition should include wear, damage, stains, burns, and dirt. Use additional page(s) if necessary. California Civil Code 1950.5 states that security deposits are refundable to the extent not used for unpaid rent, damage and reasonable cleaning charges, normal wear and tear excepted.

16. Sign and Accept

16.1 ACCEPTANCE OF LEASE

Time is of the essence. This document constitutes the entire Agreement between the parties, and no promises or representations, other than those contained here and those implied by law, have been made by Landlord or Tenants. Any modifications to this Agreement must be in writing signed by Landlord and Tenants. The failure of Tenants or their guests or invitee to comply with any term of this Agreement is ground for termination of the tenancy, with appropriate notice to Tenants and procedures as required by law.

This is a legally binding document. Read it carefully before signing. By typing your name, you are consenting to use electronic means to (i) sign this contract (ii) accept lease agreement and addenda. You will receive a printed contract for your records.

If for any reason I do not comprehend this contract in its entirety, I understand I am entitled to obtain an interpreter at my own expense. By my execution of this contract, I hereby attest that I understand and will abide by all terms and conditions contained herein.

THIS AGREEMENT MAY AUTOMATICALLY CONTINUE AS A MONTH-TO-MONTH TENANCY AFTER TERMINATION OF THE INITIAL TERM.
